FOOTBALL SPIRIT RULES CITY

HILL BILLY TEAM TO ENTERTAIN YOEMEN

(Special to Herald) — Fredericksberg High School's 1946 Hillbillies will lay their gridiron aspirations for the year on the line Friday night, **December 6th, when they play host to the Cameron Yoemen on the FHS lighted athletic field in the first bi-district game to be played at home in the twenty-three years the Hill Country school has fielded a football team.**

The greatest grid crowd in the history of the city is expected to jam its way into the spacious stadium, with seating capacity of over 6,000, to see the battle that will match the two strongest Class A gridiron juggernauts in Central Texas.

Fredericksberg's 1946 football team has been billed by Coach Chester Klaerner as his contribution to the city's Centennial Celebration. It is a team the head coach claimed early in the season would go to the top, if the team hit its stride, and kept it.

The Billy edition that will face the Yoemen went through a ten-game schedule with but one defeat and that was a non-district encounter with Class AA Tivy High of Kerrville that polished off the Red & White to a tune of 33-19.

Although defeated only once, the Billies were hard pressed for two of their victories in District 32-A, against opponents who were supposed to breathers on their schedule.

The season for the Billies started on September 20 in a non-district tilt with New Braunfels, which the Billies won with a second half rally, 26-13. The following week they overcame an early lead of Uvalde to emerge the 18-6 victor. Their third game was the loss to Tivy.

Opening their district race in Lampasas on October 11th, the Billies eeked out a 12-8 victory in one of their hardest fought battles of the year. Next game a 49-7 victory over Marble Falls, followed with a 46-7 victory over San Saba, all district 32-A games.

The Billies were rocked back on their haunches in their district game with Llano when the Yellow Jackets outplayed them during the first half and led them 14-0 at the beginning of the third period. Only a desperate rally in the two final stanzas brought the Billies ahead, 27-21.

Another hard game for the Billies was the Goldthwaite game, won by the Billies, 12-6. Most surprising victory of the season came in Burnet, tied with the Billies for the loop lead. The Billies, playing inspired ball, walloped the Bulldogs 43-7 to take the district crown. In their final district encounter they defeated the Mason Cowpunchers, 33-6.

Coach Klaerner has introduced the T formation into his play for the first time this season, with Tanner, only non-letterman on the first string, as the ball handler for the intricate maneuvers run off the T.

NEW TEACHER HERE FOR THE VETERANS SCHOOL

Sam S. White of Stephenville, has arrived here to become one of the teachers in the Veterans School, it was announced by Chas. M. Hicks, county superintendent.

Mr. White is a war veteran and was discharged from the service on November 14. He served in the army air corps. Prior to his military service he taught vocational agriculture for two years in high schools. He is a graduate of A&M College with two years also at John Tarleton College.

A new class for veterans will begin in Cameron and its immediate territory. This new class will recruit its members from Cameron and the Maysfield, Jone Prarie, Briary and the northeast section of the county.

Roy Hensley is teaching a class of students from the Ad Hall, Marak and Elm Ridge sections.

Mr. White will meet with the students for the first time at Yoe High School in Cameron Wednesday night.

Mr. and Mrs. Gilbert L. Green and son spent a few days with Mr. and Mrs. Raymond Jurgens.

Here's That Famous Hillbilly Backfield

Here are four of the Hillbilly backfield men on whom Coach Chester Klaerner of Fredricksburg, is banking to get through the Yoemen line and pile up enough points to make them Bi-District champions. This photo was made at the beginning of the season when the Hillbillies were getting ready for their first game of the 1946 season with New Braunfels. Reading from left to right are: Clinton Priess, Carl Molberg, Othella (Boy) Tanner and Clinton Usener. All are reputed speed merchants. The backfield weight average is some ten pounds more than the backfield weight average of the Yoemen. In the line the Yoemen have an equal weight advantage.

YOEMEN RATE EDGE IN TOTAL SEASON AVERAGE

Comparative scores for the whole season disclose that the Yoemen and the Fredricksburg Hillbillies will enter the Bi-District game there Friday night, December 6 in about the same ratio of winnings although it must be conceded that play in District 31-A is a bit stronger on the average than in 29-A where the Hillbillies won their district.

While only 19 points were scored against the Yoemen in conference play against the regular team, they gave up a total of 45 points on the whole season schedule. Killeen scored 6 points against the Cameron regulars when Wayne Arnold would not be denied. Rosebud scored 13 points on passes i nthe first quarter of the game here as Anding found both Sapp and Lizman. Only 6 points have been scored off the Cameron line this year and that by Wayne Arnold carrying the ball for Killeen.

Fredericksburg has won all games with a perfect record. There were no defeats nor ties. On the otherhand Cameron failed to score on Georgetown and it was 0 to 0. A touchdown by Cameron was voided on a questionable decision by the refree after the Yoemen had lined up for the extra try. The game was played in the rain.

The Hillbillies have scored a total of 285 points and their opponents have scored 108 points. The Yoemen scored a total of 241 points and their opponents 45 points. An excellent tribute to Coach Dick Young's line.

The Cameron Yoemen are coached by Leo Jackson of Texas Tech; Dick Young of Centennary. The Hillbillies are coached by Chester Klaerner, Rice Institute; A. K. Krause, Texas Tech, assistant; and Carl Hartmann, Southwest State Teachers College. The Fredricksburg gridmen are called Hillbillies because they hail from the hill country of Gillespie county.

The Yoemen name derives from the late Mr. and Mrs. C. H. Yoe who gave the city the high school building.

The Fredricksburg colors are red and white and the Cameron colors are maroon and gray.

Here is the season record on both teams:

Fredericksburg 26, New Braunfels 13.
Fredricksburg 18, Uvalde 12.
Fredericksburg 19, Kerrville 33.
Fredericksburg 12, Lampasas 8.
Fredericksburg 49, Marble Falls 7.
Fredericksburg 46, San Saba 7.
Fredericksburg 27, Llano 21.
Fredericksburg 12, Goldthwaite 6.
Fredericksburg 43, Burnet 7.
Fredericksburg 33, Mason 6.

Cameron

Cameron 45, Marlin 0.
Cameron 7, Caldwell 0.
Cameron 33, Navasota 7.
Cameron 0, Georgetown 0.
Cameron 33, Rockdale 6
Cameron 28, Taylor 7.
Cameron 14, Killeen 6.
Cameron 45, Belton 6.
Cameron 36, Rosebud 13.

PHOTO SWINDLER IS NABBED IN GALVESTON

Sheriff Carl C. Black reported early Monday that he had caused the arrest of a photo swindler wanted in Cameron for accepting money without delivering photographs.

Charges have been filed against the man. Whether prosecution follows remains to be seen. The man has a long record of swindles but in some cases charges have been dismissed when restitution was made of the money obtained under false conditions.

The man and his wife listed Dallas address but it was subsequently proven that no such studio existed.

Phone your news items to 282.

Ford Caperton Buys Muse Market-Grocery

Ford Caperton has purchased the Muse Market & Grocery in Santa Fe Town and has the store in operation with many improvements including larger space.

Mr. Caperton is well known here in the grocery business formerly being with local stores. During the war he was associated with war industry and has returned to his home city to enter business.

Mr. Caperton believes in the use of newspaper space and plans to make his market and grocery a popular food service by stocking complete lines.

Mrs. Henry Dreyer who has been ill in St. Edwards Hospital has returned to her home much improved.

HILL BILLIES FEATURING CRACK BALL TOTERS

The Fredricksberg Hill Billies under Coach Chester Klaerner this year is featuring some fine talent among its ball toters and its linemen are among the best seen in the Gillespie county mountains in a long time.

A two-year letterman, 170-pound Buddy Molberg, is the main cog in the B illy backfield,a bly abetted by Co-Captain Clinton Priess, 150-pound one-year letterman, who has emerged as a dangerous ball carrier in the last two games and is a defensive stalwart.

The other starting spot in the Hillbilly backfield is usually divided between Clinton Usener, 130-pound scat back and a senior letterman, and Louis Dietrich, a swivel-hipped sophomore, who has brought the fans to their feet on many occasions with his brilliant runs.

The Billy forward wall is manned by a letterman in every position. Schlaudt and Wilbert Seipp, weighing in the neighborhood of 170 hold down the end spots, with R. L. Frantzen, a non-letterman, ready to step into the breech should a weakness develop.

Roy Stroeher, 150, and Emil Esensee, 155 the latter a two-year letterman, patrol the tackle spots, with Co-Captain Robert Kott and Harold Stehling, weighing 155 and 135, respectively, supplying the offensive and defensive dynamite at the guard slots.

Herbert Schmidt, 159 pound, two year letterman, holds down the center position, with Robert Probst, 148 pound reserve ,ready to step in should the occasion demand.

Two of the Billies made all-district last season, Schmidt at center and Molberg. Schlaudt and Esensee made honorable mention at their end and tackle positions.

On hand to entertain the Cameron and other fans who attend the game will be the Fredericksberg High School Band, some forty strong and the snappily uniformed Red and White Pep Squad of over 100 members

Every arrangement is being made for the comfort of spectators at the game and civic organizations in the city and the general populace will make every effort to extend every courtesy to the football fans of their sister Centennial City on December 6.

The date marks a gala occasion in the gridiron history of the school and ity, for eleven times in twenty-three years have the Billies won a district championship and this is the first time they have been given the opportunity to extend their hospitality to a bi-district foe.

YOEMEN LEAVE EARLY FRIDAY FOR THE HILLS

Cameron was on the crest of football enthusiasm as its team prepared for the bi-district game with Fredricksburg in the hill country of Gillespie county Friday night, December 6.

Coach Leo Jackson said early Thursday that the Yoemen are on the way back up, are ready and will make a ball game out of it Friday night when they take on the Hillbillies who are Conference winners in 29-A district.

Tapering off Wednesday in workouts the Yoemen will not do any more heavy work for the coach wants every man ready to go and they will be ready. He was taking no chances on injuries cropping up at the last moment.

The Yoemen will leave Cameron early Friday going to Burnett for lunch and then by way of Llano to Fredricksburg.

The Yoemen will be followed by many fans some going by bus but more going by private cars. More than 400 seats have been reserved for the Cameron fans but in case the tickets are not already sold they will not be available.

Many here were taking reservations in Fredricksburg and some in Kerville to make a week end jaunt of the big game, returning to Cameron Sunday or late Saturday.

The distance is 161 miles from Cameron and the nearest route is by way of Austin and Johnson City.

This is how it looked on the eve of the game: Cameron 20, Fredricksburg 13.

MRS. O. C. NOLTE IS BURIED HERE MONDAY

Funeral services for Mrs. O. C. Nolte, 57, were held at 2:30 p. m. Monday, December 2 from the Chapel of the Green Funeral Home in Cameron with Rev. A. E. Rider, Pastor of First Methodist Church, officiating and interment in Oak Hill Cemetery.

Mrs. Nolte died in Austin at 11 p. m. Saturday, November 30. She had been in ill health for several years.

Mrs. Nolte was born in Austin county on November 11, 1889 and came to Milam county in 1900 where the family settled in the Ben Arnold community. She married O. C. Nolte of Ben Arnold on October 12, 1907. She was the mother of two children, a son and daughter.

During her long period of illness she was given the tender, affectionate care of her husband and family and her death brought sorrow to the hearts of many in her home community and in Cameron.

Mr. Nolte, her husband, has been a prominent resident of the Ben Arnold community since the marriage in 1907.

The body was brought to the Green Funeral Home from Austin Sunday and remained at the funeral home until the conclusion of services Monday afternoon.

Mrs. Nolte was a member of a prominent Texas family, pioneers who settled in Austin county in the early days. She was before her marriage Miss Ottmer.

Surviving are her husband, O. C. Nolte of Ben Arnold; one son, Woodson Nolte of Ben Arnold; one daughter, Mrs. Edgar Sell of Cameron. One grandchild also survives, being the child ;of Mr. and Mrs. Sell.

Other survivors include 2 brothers H. Ottmer of Austin and B. H. Ottmer of Beaumont; and one sister, Mrs. C. F. Nolte of Ben Arnold.

Friends here and in Ben Arnold extend their deepest sympathy to the bereaved family and friends.

15 Rattlers Killed In Burrow Walkers Creek; 2 Snakes Weigh 80 lbs.

Fifteen rattle snakes, two of them weighing 40 pounds each, were killed on the Raesler farm Sunday by Mrs. William Koenig and brother, Abner Brummet.

An exciting, dangerous battle followed discovery of the snakes in burrow beneath cactus on the rim of a deep ravine. To get at the snakes Mrs. Koenig and brother had to get down in the ravine and fight them above their heads. Two of the big rattlers rolled down the side of the hill at their feet but were cut to pieces with hoes.

When the snakes were first discovered several rounds from a small rifle were fired into the hole. The lot were then finished off with hoe and sticks.

Two of the rattlers weighed 40 pounds each. In all the snakes filled a No. 2 wash tub.

The snakes, hibernating for the winter were in a compact mass in a large hole made by rats and they were snugly tucked away in cotton, shucks and sufch as rats use to build their homes.

Mrs. Koenig brought in the rattles from the tails of the snakes Monday. The Roesler farm is in the Walkers Creek community. Many believe rattle snakes are on the increase and warnings are sounding.

Our G. I. class which is being organized will meet for the first time on Sunday, Dec. 8th. Mr. Roy Wright is the teacher for this new class, and every ex-service man who is not a member of another class is invited to attend this new class.

MRS. ALBENA LESOVSKY FUNERAL HERE SATURDAY

Funeral services for Mrs. Albena Lesovsky who died in Vinita, Oklahoma on Thursday, November 28, will be held in Cameron at 10 a. m. Saturday, November 30 from the Marek-Burns Funeral Home.

The body will arrive in Cameron over the Santa Fe at 3 a. m. Saturday.

Mrs. Lesovsky, a former resident in Cameron, was born in Austin County in the Industry community on July 18, 1859. When she was a child the family moved to Wisconsin. There she was married to the late Anton Lesovsky and later they came to Texas, settling in Cameron in the middle eighties. Following the death of her husband in 1919 she made her home with her daughters.

Ten children were born to Mr. and Mrs. Lesovsky and the following survive: Mrs. W. H. Nabours, Oklahoma City; Mrs. Delba Hollien of Sealy; Mrs. J. E. Lindsey, Rule; Mrs. Chas. G. Smith, Tulsa, Okla.; Mrs. E. W. Lindsey, Tulsa, Okla.; Mrs. P. T. Spears, Albany; and Mrs. N. L. Peters, Glendale, California.

Mrs. Lesovsky was a life long member of the Presbyterian church. Dr. W. R. Hall of Marlin, Presbyterian minister, will conduct the services at the Marek-Burns Chapel at 10 a. m. Saturday and interment will be made in Oak Hill Cemetery.

YOEMEN PHOTOS GO TO FREDRICKSBERG PAPER

Photos of the starting line of the Yoemen team were sent late Tuesday to the Fredricksberg Standard by The Herald.

The newspaper there will make gnerous us of the cuts for both program and newspaper publicity.

Coach Leo Jackson also authorized the photo of the famous Yoe High School Band.

An exchange of information was made between The Standard and the Herald in an effort to give the people of the two cities the best possible picture of the teams to compete in the Bi-District game there on Friday, December 6.

SPAIN:

On Pan

The United Nations security council cleared the way for discussion of the Spanish question by the U. N. general assembly even as Madrid reported the arrest of Communist leaders throughout the country.

Although the whole Spanish question is expected to be subjected to thorough scrutiny by the U.N. upon insistence of the Russian bloc, diplomatic observers did not look to stringent action against the Franco government as long as the U. S. and Britain opposed drastic measures. Fearing a resurgence of leftist strength in the country in the event of a sudden upheaval, Anglo-Americans have insisted upon encouragement of a democratic movement before lending support to an overthrow of Franco.

The arrest of Communists indicated that Franco was taking no chances on an organized outbreak timed to elicit international sympathy. Over 200 Red leaders of the Spanish republic armed forces organization were taken in tow along with radio transmitters, a printing press and copies of the official Communist organ. An arms cache was uncovered near Barcelona.

JAPAN:

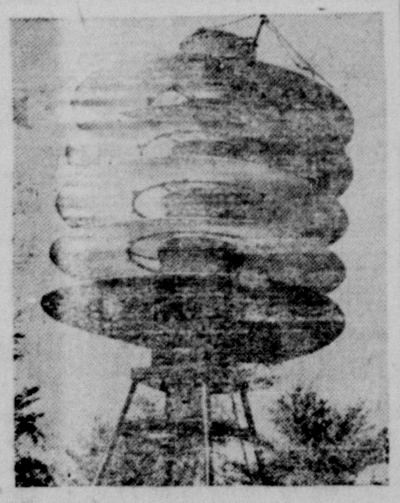

New Charter

Historians marking the progress of the political enlightenment of people could flourish their pens dramatically as Emperor Hirohito of Japan announced promulgation of the country's new constitution.

Unbinding the religious, social and political chains of the past, the new charter raises the Japanese from their traditional oriental subservience, imparting rights to the individual which dignify his being. As further evidence of the Japs' newfound respect for humanity, the constitution renounces war as a means of settlement of differences between nations.

Promulgation of the charter was celebrated by nation-wide festivities, with a large outdoor program inside the imperial palace grounds in Tokyo marking the occasion. The popular manifestation was in striking contrast to the promulgation of Japan's first constitution 57 years ago when Emperor Meiji recognized the charter before a select group of aristocrats and professional leaders.

Keeps Acreage Warm

Fruit, truck and flower growers are expected to profit from development of a new outdoor heating apparatus designed to check frost damage. Invented by engineers at Michigan State college experiment station, the device radiates infrared heat from round aluminum reflectors mounted above each other at an estimated cost of 75 cents worth of fuel oil per hour. Built for $85, the heater raised the temperature on an acre of ground from six to eight degrees on three successive nights.

HOUSING:

Find Material

Government warehouses bulging with surplus building materials in Illinois, Indiana, Wisconsin, Michigan, Minnesota and Iowa were reported by a navy vet probing the construction picture in the midwest for the American Legion's national committee on veterans' housing.

Given free access to the warehouses, Arthur I. Marcus of Greendale, Wis., displayed duplicates of inventory sheets disclosing large quantities of white lead paint, toilets, soil pipes, plumbing fixtures, nails, veneer and plywood.

Over 11,000 feet of conduit pipe had been stored in one warehouse since November, 1945, Marcus said. Over 90 toilets had been held in another depot since October, 1945, and large quantities of rusting ¾-inch pipe were uncovered in still another. In one large warehouse, Marcus said he found 2,000 toilets, 500,000 square feet of plywood and veneer, and sufficient nails to build 12,000 houses.

SNOW:

Snow removal from American highways alone costs more than $30,000,000 a year, and this is apart from the figures borne by cities in "the snow belt," according to Charles M. Upham of the American Road Builders' association.

"It cost 36 states $30,909,761 for snow removal and ice treatment for the winter 1944-45, according to their reports to the Public Roads administration," Upham said. "This represented clearance of 288,999 miles of roads."

Hen No. 354 layed 352 eggs. This is a daughter of "Lady Milam" that layed 1168 eggs in five years or a five year average of 233 eggs. She now has 1265 eggs to her credit and is now doing her 7th year. The above hen has two sisters that layed 261 and 298 eggs.

Ideal chick prices have bee nreduced for the 1947 season. The breeding has been improved and the pullorum classification has been stepped up to Pullorum Passed. All flocks are being bloodtested until no more reactors are found. All customers receiving their chicks at the hatchery will save 90 cents per 100. 10 per cent discount on all chicks booked for delivery from Jan. 21 to Feb. 15. Just think of this —U. S. Certified—250 to 300 egg ROP Sired Pullorum Passed chicks at only $11.00 per 100. This is truly the best chick value in Texas. Chick and poult orders are now being booked. Ideal Hatchery & Poultry Farm, Leo & Theo Fuchs (ROP Breeders) Cameron, Texas.

LET CHRISTMAS RENEW HOPE FOR THE FUTURE

Open your hearts and minds to the spirit and sincerity of Christmas Greetings, both between intimates and our outside friends. Forget present difficulties and live again the Christmas of innocent and better days. Let it renew hope for the future, with a resolve that the best impulses of our nature shall assist the character building of the real lesson of the Christmas season.

Government Figures Profit On Potatoes; Tax Gain Told

WASHINGTON. — The government figures to make a profit of more than 200 million dollars on 42 million spent so far this year supporting producer prices of potatoes. The profit prospect was outlined by agriculture department officials who explained:

The agency has purchased 32 million bushels of surplus potatoes at a cost of 42 million dollars, including handling and transportation charges.

The potatoes were sold to starch makers and liquor distillers for about 10 million dollars—a loss of 32 million dollars.

But the whisky produced from the potatoes will bring in at least 240 million dollars in liquor taxes, turning the loss into a 208 million dollar government profit.

TIDINGS OF GREAT JOY

And there were in the same country shepherds abiding in the field, keeping watch over their flock by night.

And, lo, the angel of the Lord came upon them, and the glory of the Lord shone round about them: and they were sore afraid.

And the angel said unto them, Fear not: for, behold, I bring you good tidings of great joy, which shall be to all people.

For unto you is born this day in the city of David a Savior, which is Christ the Lord.

And this shall be a sign unto you; Ye shall find the babe wrapped in swaddling clothes, lying in a manger.

And suddenly there was with the angel a multitude of the heavenly host praising God, and saying.

Glory to God in the highest, and on earth peace, good will toward men.—Luke 2, 8-14.

Mrs. Ray Dyers and son of Lake Charles, La., are visiting in the home of her sister and brother-in-law, Mr. and Mrs. Hubert Colburn.

Mrs. A. E. Bryant has returned home after a weeks visit with her mother, Mrs. Smidt near Temple.

Ed Pagel, J. A. Provacek, E. J. Provacek, E. Fisher, A. E. Bryant and Joe Slovacek have returned from a deer hunt, bringing home eight deer.

Mr. and Mrs. Jim Clement spent Tuesday in the W. A. Wilkerson home.

Mr. and Mrs. K. D. (Buster) Griffin are the proud parents of a baby girl born November 25, 1946 at Cameron Hospital. Mrs. Griffin is the former Frances Nabours of Cameron. The grandparents are Mr. and Mrs. Homer Nabours of Cameron, and Mr. and Mrs. Frank Griffin of Yarrellton.

Mr. and Mrs. R. M. Yancy of Abilene and Mr. and Mrs. G. L. Gallatin and Patsy of Austin spent the week end in the C. E. Russell home recently.

Visitors in the C. E. Russell home Tuesday evening and supper guests were: Mr. and Mrs. Cecil Richerson and son, Tim, Mr. and Mrs. Earl Richerson of Port Arthur, and Mr. and Mrs. J. Haley Richardson of Rosebud.

Rev. Joe Musick and wife were Sunday visitors in the home of Mr. and Mrs. Rodney Barker, after the ten o'clock service at the Baptist Church.

The Sponsors, Mrs. Arnold Jungmann and Mrs. Walter Fuchs met with the 4-H Club girls Friday afternoon at the school building.

Miracle Plays Still Held

Among more tradition-observing communities of the world, old-time miracle plays are still performed, often in the form of elaborate dances, in solemn, but lavish, settings against the colorful background of tropical foliage.

Sweet Potatoe Weighs 8 and Quarter Pounds Is On Exhibit Here

Milam's Magic Soil has done it again. This time a sweet potatoe that weighs 8 and one half pounds.

This potatoe is on display in the show window at The Herald and is 27 inches in circumference and from tip to tip around it measures 32 inches.

The potatoe was brought in by Mrs. Henry Dreyer. It was produced in the sand country east of the river on the Jim Neinast farm.

After spending ten days here with Miss Aetna Smith, Mrs. Georgia Lott Foster has returned to her home in Houston.

Mr. and Mrs. Lester J. Windham and son Jesse, of Texas City, were in Cameron Wednesday on their way to the Hunt Ranch near Killeen to spend Thanksgiving.

R. L. Storey, who has been ill at his home for some time is reported to be improving.

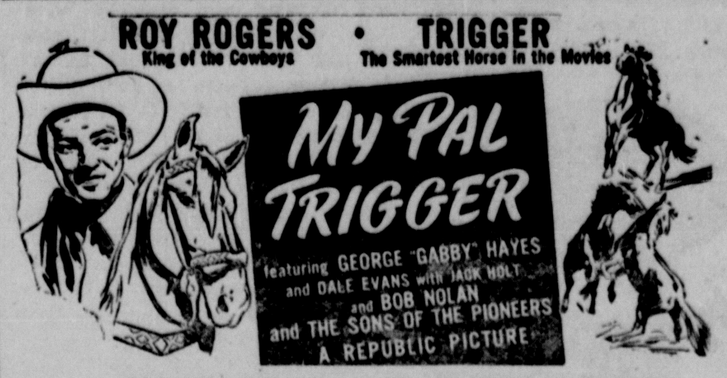

NEW YEAR'S BLESSINGS AN ANCIENT SWISS LEGEND

According to Swiss legend, the Holy Family is abroad during the hour of midnight mass on Christmas Eve.

Therefore, a bowl of fresh milk is placed upon the dining table and each member of the household carefully lays his spoon upon the table cloth.

The person who, returning from church, finds his spoon has been moved may anticipate special blessings during the coming year: for surely Mary and Joseph have rested within the abode during their Flight into Egypt and the Virgin used that spoon to feed the Infant Jesus.

Mrs. M. W. Toland of San Antonio arrived in Cameron on Wednesday and was accompanied back to her home by her parents, Mr. and Mrs. A. E. Oliver who spent the Thanksgiving Holidays there.

POULTRY EXHIBITS HERE ATTRACT LARGE CROWDS

Central Texas Poultry Show sponsored by the Cameron Chamber of Commerce was a major exhibit of better poultry and attracted large crowds here on November 22 and 23. The exhibits were held in the Knights of Columbus Hall.

Premiums were awarded for three or more birds in a class, the first prize $1.00. Second prize 75c and third prize 50c. For two in a class first and second ribbons were awarded.

Premiums for pens, three or more in a class, first $1.00; second 75c and third 50c. Two in a class, 1st ribbon and 2nd, ribbon. One pen in a class, ribbon.

The best display in the show was presented by Fuchs Brothers Ideal Hatchery and Poultry Farm of Cameron.

Bill Arthur, Agriculture Teacher in the High School, directing the show says the exhibit was a big success. Judging was done by W. D. Seals, county agent of Bell County.

Prizes were awarded as follows: Australops, pullets: 1st, Judson Storey, Cameron, 2nd, A. L. Zelisko, Buckholts; 3rd, Judson Storey.

Hens: 1st, 2nd and 3rd prize was given to Judson Storey.

Cockerels: 1st, Judson Storey; 2nd A. L. Zelisko; 3rd, Ideal Hatchery.

Jersey White Giant pullets: Monte Angell, Cameron, received 1st and 2nd prize and Edsel Burnett, Cameron received 3rd award.

Jersey Black Giants, pullets: Monte Angel received 1st, 2nd and 3rd urize.

Rhode Island Reds, pullets: 1st, 2nd and 3rd prize was given to Anton Mikula of Cameron.

Cockerels: The three premiu ns were given to Ideal Hatchery of Cameron.

New Hampshire Reds, cockerels: Ideal Hatchery received all three prizes in this exhibit.

White Leghorns, pullets: Ideal Hatchery received 1st and 2nd premium; Bill Arthur received the 3rd award.

In the production class Ideal Hatchery received all three premiums.

In the Barred Rock class of pullets Frank Hubnik of Cameron received all premiums.

In the White Rock class of hens, Bill Weideman of Cameron received all three premiums and 1st and 2nd award in the pullet class.

Thomas Thweatt of Cameron received 3rd premium in pullet class.

Willie Vogelsang of Cameron received all three premiums in the turkey hen class.

In judging the champion young pen of the show, $1 was awarded Ideal Hatchery; champion pullet, Ideal Hatchery; champion cockerel, Rhode Island Red; Ideal Hatchery; champion hen, Barred Rock; Frank Hubnik. Champion Cock, Barred Rock; Frank Hubnik. Grand Champion female of show, white leghorn pullet; Ideal Hatchery; Grand Champion male of show, Rhode Island Red Cockerel; Ideal Hatchery.

W. A. Price, representative of the American National Insurance Company for the past year in Rosebud, Cameron and Rockdale has been promoted to the position of Assistant Superintendent of the Waco office which became effective November 11.

5. Knead 30 seconds.
6. Roll out to ½" thickness.
7. Cut with a 2½" biscuit cutter.
8. Place in biscuit pan 1½" apart.
9. Bake 10 minutes at 450° F.

LIGHT CRUST FLOUR
"The Finest of Fine Flours"

Fury Controlled.

A man pulled levers in a control tower at one end of the gate structure, and six huge gates opened noiselessly and cautiously for just a few inches.

Fan-shaped water spurted through the small apertures, forced out by tremendous pressure. The fans joined and a body of water leaped into the dry channel, foaming and churning down the spillway. Within seconds the gates had disgorged a high, white-capped wall of water that gained momentum as it rushed toward the stilling basin.

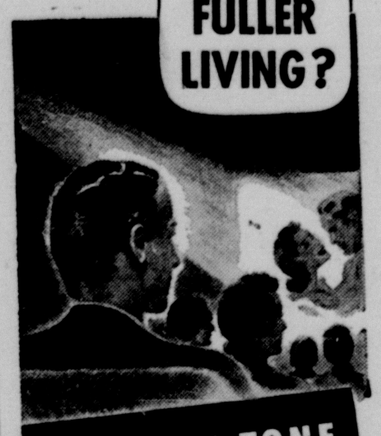

As the surging crest hit the basin, waves dashed high into the air and yard-long paddlefish, far from their normal Mississippi haunts, were hurled skyward, helpless in the raging current. With every passing moment, the brand-new river deepened and the water churned into cross-currents and whirlpools.

In the stilling basin, the water lost much of its fury. It swept easily but swiftly into a nature-made valley through the badlands which carried it nine miles below the Fort Peck dam and into the Missouri's proper channel.

Frankly, there is something absurd about an economy that pays prize fighters more money in a night than a teacher can earn in a life-

Better Hearing For Less Money

May I Help You ENJOY FULLER LIVING?

with FULL-TONE HEARING

NEW Beltone (ONE-UNIT) MONO-PAC GIVES FULL-TONE HEARING

Because the new, amazingly small Beltone Mono-Pac is powered with the ingenious new "X-Cell," it is able to bring back hearing with full, ever-level tones. Rich . . . brilliantly clear! This is just one of the 12 big new advantages in the new tiny-sized Beltone Mono-Pac.

A Penny's Worth of Lone Star Gas Service still cooks a dinner for three people

Lone Star Gas Service costs less today than before the war. It is one of few costs of living which has been reduced since 1941.

Lone Star Gas Company

Warning!

On Fire Losses

In the corporate limits of the City of Cameron, our Fire losses from 1940 through 1945, a period of five years, were $32,776.78.

This property is wasted in preventable fires, destroyed and gone forever in smoke and ashes.

A lot of people are seeking a place to live, in the city's most acute housing shortage.

This critical problem can only be met by in-individuals in united effort, in constant caution to prevent fire, wherever fire can start.

Cameron Volunteer Fire Department

Record Is Set By Paper Mills

Product Is Now Rolling Out At the Highest Rate in American History.

NEW YORK.—Exclusive of newsprint, paper and paper products now are rolling from American mills at the highest rate in history, and the gap between supply and demand in most categories may be closed by the end of the year. One of the major shortages, according to industry leaders, appeared to be in paper for the book and magazine trade.

Chief difficulty in this division was not to determine supply — estimated to be about 400,000 tons greater this year than last—but to guess the future demand, since the recent hike in OPA wood pulp ceiling prices of about 10 per cent could work two ways:

Production might be spurred by attracting more pulpwood from farm woodlots and adding profit incentive at the mill level.

Cost May Go Higher.

But, at the same time, the cost of paper might go to a point where publishers would drop some of their marginal publications and print fewer books.

Total U. S. production of paper and paperboard in August was estimated at 1,715,710 tons by Dr. Louis T. Stevenson, economist for American Paper and Pulp association. Daily average production was running about 17 per cent ahead of last year.

The industry entered 1946 hoping to produce at a rate of about 18 million tons domestically this year. Present production is at a rate of more than 20 million tons a year.

Estimates for 1946 have been revised as follows: Domestic production, 18,620,000 tons; imports, 3,100,000 tons; exports, 475,000 tons; giving American consumers 21,245,000 tons of paper and paper products.

The gap between supply and demand has been steadily narrowed. One industry source estimated that at the end of June supply was running one million tons behind demand, but the association believes that the gap should be "whittled down to reasonable dimensions by the end of this year."

Future Trouble Spots.

There are, however, several future trouble spots.

Swedish pulp, on which American mills have depended in the past to fill the gap between American production and American needs, has practically stopped coming in, and the OPA price rise of 10 per cent—designed to meet the 10 per cent increase in the value of the Canadian dollar—fell short of meeting a 14 per cent hike in the value of the Swedish krona.

The Swedes shipped about 200,000 tons to the United States so far this year, and Finland 69,000 tons. If the price incentive boosts total domestic production by 6 per cent, loss of the Swedish shipments would be offset.

Little more is expected from Sweden because, American mill owners pointed out, the Swedes can sell all their pulp in European and South American markets at prices above the American ceiling.

Consumers of paper noted with satisfaction that several pulp mills being built in Canada are about ready to start production.

Catholics Are Translating Bible Into Modern 'American'

BOSTON. — First "American" translation of the Catholic Bible is under way in this country, complete with "phrases and spelling proper to ourselves rather than to the English," reports the Rev. Matthew Stapleton, former head of the American Catholic Biblical association, which is charged with the translation.

So far, the group of Catholic scholars has put the first five books of the Old Testament into modern "American" from the ancient Greek and Hebrew texts.

To preclude possible bafflement of Bible readers outside the United States, two other Old Testament translations into English are in progress in England.

CHRISTMAS MEDLEY

* * *

Although turkey is the essential feature of Christmas dinner today, the bird was unknown in England in the 16th century. Introduced from America, it came into its present popularity in the early 1700s.

* * *

In several states of the Union there is a definite law forbidding anyone from interfering with a child's belief in Santa Claus.

* * *

Some European peoples have a superstition — dating from ancient times—that animals take on the power of speech at Christmas time.

* * *

Lewis Carroll wrote his famous book, "Alice's Adventures in Wonderland," as a Christmas gift for a little girl who was the daughter of one of his friends.

Getting a Shoefull in Holland

Not on reindeer but on a white horse, St. Nicholas arrives in some parts of Holland, and instead of looking for stockings he searches for wooden shoes to fill them with gifts.

The loudest lamentations of the century will arise from business and industry when the government gets out of business, cutting out subsidies, legislative favors and regulations protecting monopolies.

Christmas was once abolished by an act of parliament in England. That was in 1644 when the Puritans under Oliver Cromwell governed the realm. The Puritans' disbelief in holiday enjoyments was so intense that parliament ordered Christmas to be observed as a strict fast day. No roast beef, no plum pudding, no wassail were permitted.

B. F. Angell of Freeport spent several days in Cameron last week visiting with relatives and friends. Mr. Angel is with Dow Chemical Company and represents the Bricklayers Union of Galveston. Dow Chemical employees have been on strike for the past two weeks.

Santa Fe Film Shown At Rotary On Navajo Indians In Mexico

One of the most enjoyable programs in recent months was given at the weekly luncheon of the Rotary Club on Wednesday by W. H. Benson, publicity and advertising director for the Santa Fe Railroad.

W. DuBois, local Santa Fe Agent, was in charge of the program and Lester Williams was program chairman.

The film was a colorful account of the romantic life of the Navajo Indians in New Mexico who live on the largest reservation in the United States. A number of the Rotarians have seen the Navajo country around Gallup and all enjoyed the program.

Miss Helen Salac Is Bride of W. A. Morris In St. Monica Ceremony

Miss Helen Salac, daughter of Mr. and Mrs. Frank J. Salac of Cameron, and Wilbert A. Morris, son of A. Morris of Waco were married October 29 at Saint Monica Catholic church in Cameron.

The ceremony was performed at 9 a. m. by the Rev. George Duda, before the altar adorned with white chrysanthemums.

Marvin Farek of Waco was best man, and the bride's attendant was her sister, Miss Caroline Salac who wore a brown suit with brown accessories and a gardenia corsage.

The bride wore a gold suit with brown accessories and orchid corsage.

Following the wedding a reception was held at the home of the bride's parents.

The bride is a graduate of Yoe High School in Cameron and of Providence Hospital school of Nursing in Waco.

The bridegroom is a graduate of Waco High School and is a World War veteran.

The couple will make their home in Waco at 2712 Grim Street.

Guests at the reception were: The Rev. George Duda, Mr. and Mrs. John Mraz, Mr. and Mrs. Frank Valka, Lillian Valka, Mrs. Rose Valka, Adell Valka, Mr. and Mrs. Joe Zalesky, and family, Leo Plachy, Mr. and Mrs. Henry Hlavacek and family, Mr. and Mrs. C. Zarosky, Mrs. Schattle, Mrs. E. Zalesky, Larry Hackebeel, Mr. and Mrs. Joe Farek of Waco, Mr. and Mrs. Albert Zajicek, Buckholts; Mr. and Mrs. J. Cabron, Burlington; Mrs. Carl Schuett, Waco; Miss Rosalie Salac, San Antonio; Mr. and Mrs. Arthur Peevey, Waco; Miss Mary Haelscher, Waco; Miss Dorothy Schiemtz, Waco.

BOYCE HOUSE GIVES YOU TEXAS

Add to "items that have changed since I was a boy:"

Prizefighters don't have the picturesque names they used to have. The negro boxers who fought in the old Phoenix Athletic Club in Memphis, Tenn., had such handles as Joplin Ghost (he was a scientific boxer); Hock Bones and, even more striking—the name, not necessarily the punches—Egg-head Ratty.

Of a public official who fancied himself as a speaker, a rival said, "He never opens his mouth but what he substracts from the sum total of human knowledge."

Then there was the statesman who answered the speech of an opponent with, "The gentleman is indebted to his memory for his humor and to his imagination for his statistics."

Even a little "column" like this gives one an opportunity to strike a blow for the people of Texas.

A few years ago, a bill was introduced in the legislature, which would have had the effect of confiscating 3,000,000 acres of land rightfully belonging to the public schools and placing that land in the hands of oil companies. These tracts were known as vacancies and their potential mineral wealth gave them value which might reach $100,000,000.

School leaders were fighting to protect the birthright of the boys and girls. Through this "column" the facts were told to about a million readers of 200 weeklies. The article was quoted in debate in the legislature and the bill was modified to safeguard the rights of the school children of this state.

Any time we learn of a good cause, such as that, to which we can lend a little assistance, it will be done.

Mr. and Mrs. V. A. Kubecka had as their holiday guests the past week end, their children; Mr. and Mrs. Louis Kubecka and daughter, Kay Evelyn from Austin, and Mr. and Mrs. LeRoy Kubecka of Shrevesport, La. They also had as supper guests, Mr. and Mrs. Ed Kolba of Buckholts and Clayton Kolba of Denton.

Judge John Watson has returned from Dallas where he visited with relatives and friends.

PRIZE WINNING HOME LOYALTY ESSAYS

By MARY NELL McCLELLEN
By PEGGY POSEY

Have you ever thought about why you, as a citizen of Cameron should do your trading here? I have and here are some of the reasons for trading here. I live and get my education in Cameron, and my father makes his money in Cameron, thus, I should spend my money here.

If more people trade in Cameron, the merchants and business men can afford to enlarge their stock and their places of business.

By shopping in Cameron, I help to create more jobs for the people here and thus decrease unemployment.

More businesses in Cameron means more taxes which will go for bettering the conditions here. It helps us to have better schools in which I and other future citizens of the United States can secure our education. It also helps us to have better public buildings, roads and parks.

Next time I start to go shopping in another town, I'll ask myself whether the citizens of this town contribute anything to my wellbeing in Cameron. The answer to this question will be no, because they are trying to build a better city for themselves.

If we all cooperate, Cameron can and will be a great trading center.

If the citizens of Cameron will not support her, then who will? Cameron has as many products of the common sort as any other city; therefore, we should buy our everyday necessities in our own community and go elsewhere only when what we wish to purchase is not available here.

There are several reasons for this statement. If we spend most of our money out of Cameron, then her financial position is endangered; while if we spend our money here, it is kept circulating in the city. Everyone is benefited.

If Cameron is to be improved and enlarged, she will have to have the support and backing of her own people. We do not want Cameron in a rut; and if there is a large retail demand, there will be new businesses set up, which, in turn, will benefit the entire city.

To make our city grow let's get behind her with our time, money, effort and support.

LIGHT VOTE CAST HERE THURSDAY, NOVEMBER 5

Returns from the general election held in Milam county on Tuesday November 5 disclose the lightest vote in recent years. Not more than 1375 votes were cast.

Interest centered on the proposed constitutional amendments. The brutal Democratic majority was registered as usual in balloting for officials.

The Republicans polled 81 votes for United States Senator in voting for Murray C. Sells while Tom Connally the Democrat received 1285.

Eugene Nolte, Republican candidate for Governor received 56 votes.

Due to the death of the late Judge Jeff T. Kemp two days before the election there was a limited write in with Ed Gunn, retiring County Attorney, receiving 120 votes. Roy Baskin, Cameron city attorney, received 60 votes; Grady Stidham, retiring Commissioner in Precinct 2 received 6 votes and O. D. Graham, Thorndale lawyer, 4 votes.

Two of the proposed Amendments carried. They are No. 1 authorizing the Legislature to appropriate funds for the building at John Tarleton Agricultural College. No. 3 authorizing the Legislature to appropriate all funds derived from stated taxes to the exclusive use of the Highway Department in acquiring rights of ways and building highways and Farm to Market roads. The vote on the No. 1 was 732 for and 383 against. On No. 3 902 for and 231 against.

The voters turned down the No. 2 proposed amendment authorizing social security for state and county employes through a system of taxes and salary levies by a vote of 629 against 486 for.

Robert Fikes Writes From Germany Trying To Locate His Buddy

15 November 1946
Giessen, Germany

Dear Mr. White:

Guess you are wondering just who this is so I will tell you right away also just why I am writing this letter to you. I am Ramyond Fikes son, and I have a Buddie who lives in Rockdale, who came over seas the same time that I did but we were split up and I have been trying to get his address ever since March but so far I haven't succeded so I want you to run an add in your paper for me asking anyone who knows the address to please drop me a letter telling me the address. I will send you a money order paying for the add if you will only send me the bill and I will appreciate it very much.

A friend,
Robert L. Fikes

P. S. The boys name is Ike S. Ellis, 38761319.

Dear Robert:

There will be no charge and we hope you locate your Buddy.

—The Editor

Sweet Potatoe Looks Like Duck; Amazing Is This Freak Growth

One of the most unusual freak potatoes ever seen in this area famous for its magic feats, is a small one brought in last week by W. M. Brown of Maysfield.

This potato is an exact form of duck and Mr. Brown has accentuated the resemblance by making some legs out of small sticks.

The potato is on display in the show window of The Herald and has attracted quite a bit of attention.

The likeness is amazing and if you haven't seen it you should do so.

Mr. and Mrs. Cramblit In Columbus, Ohio, Are Parents of Baby Boy

Mr. and Mrs. O. E. Cramblit of Columbus, Ohio, are the parents of a baby son, born November 18 in the University Hospital in that city.

The baby weighed 7 pounds and has been named Elmer Ray, after his father and grandfather.

The grand parents here are Mr. and Mrs. Aubrey Ray Price. He is the first grandchild in the family. The mother is the former Miss Mary Sue Price.

"We heard him cry over the telephone," said Mr. Price. "And just think that is half way across the United States. Yes sir, when you can hear a baby cry that far he must be some boy," concluded the happy grandfather.

Do Your "Gums" Spoil Your Looks?

One look at some "GUMS" is enough to upset anyone.—Druggists refund money if the first bottle of "LETO'S" fails to satisfy.

Spiritual Freedom Is In Peril; Local Pastor Joins In Movement

Six thousand ministers in nineteen church denominations, nationwide, have banded together in a crusade known as Spiritual Mobilization to combat the peril to spiritual freedom because of communist infiltrations due to a rising pagan level toward a mortal God state, according to announcement made yesterday by Dr. James W. Enfield, Jr., founder and director of the organization. The movement is locally represented by Rev. Lester L. Morriss.

This crusade for freedom, which recognizes man as a child of God and as such master (not slave) of the state, sponsors the return to the American way of life with its democratic process and constitutional government. Its advisory committee is headed by such notables as Dr. Donald J. Cowling, former president of Carleton College; Roger W. Babson, the statistician; Dr. Edgar J. Goodspeed, Bible scholar and author; Dr. Rufus B. von Kleinsmid, chancellor University of Southern California; Alfred Noyes, poet; Dr. Robert Gordon Sproul, president University of California; Dr. Robert A. Millikan, president California Institute of Technology; Dr. Norman Vincent Peale, clergyman; Hon. Albert W. Hawkes, United States senator; and others.

Mrs. Ethel Sapp will have as Thanksgiving guests, and until after the week end, her sister and husband, Mr. and Mrs. Harry Boseman, of Lubbock.

The John Watsons Are Parents of Daughter

Mr. and Mrs. John Watson, Jr., are the parents of a baby girl born on October 14 at St. Paul's Hospital in Dallas.

Friends here have received announcements telling of the blessed event.

The father is the son of District Judge John Watson of Cameron. He served in the army in the late war and was a Captain at the time of his discharge.

The baby has been named Rebecca Chappell Watson.

They Aid Coop Fund For Poultry Shows

In the already published list of contributors to the coop fund for poultry shows here four names were omited and they are as follows:

Horstmann Bros. $15.00; Cameron Fruit & Grocery Co. $6.00; Cameron Ice & Cold Storage Co. $6.00 and Albert Collins $6.00.

Coops purchased with money contributed by Cameron business men were used for the first time in the November show and will be available again next year.

Mr. and Mrs. D. K. Hall whose home has been near Ad Hall have purchased the Tiff Moore home, and have completed moving. Many friends are glad to welcome Mr. and Mrs. Hall to the city.

Mrs. R. D. Wise and little son of Cameron Rt. 3 visited in Cameron this week.

BASKET BALL SCHEDULE SET UP AT MEET HERE

Basketball schedules for the season soon to open were set up here Monday night at a meeting of representatives from towns in the district, it was announced by Leo Jackson, head coach at Yoe High School.

Towns represented were Cameron, Taylor, Belton, Georgetown, Hearne, and Rosebud.

W. T. Hanes was named chairman. L. A. Holmes of Rosebud, Secretary and Treasurer; E. T. Robbins of Taylor, Vice Chairman.

The district representatives voted to play a double round robin schedule on a home and home basis to determine district championship. In case of a tie a series of 3 games will be played and the winner will be thus determined.

Each school is pledged to contribute to a fund to purchase a trophy to be awarded.

Cameron Might Follow Marshall Example; Our Needs Much Greater

Marshall residents have approved tax and revenue bonds totaling $2,150,000 and a 25-cent increase in the school maintenance tax.

Revenue bonds include $1,000,000 for water system improvements and $250,000 for sewage system improvements.

Tax bonds call for $1,000,000 for public schools, $325,000 for street paving, $50,000 for city parks, and $125,000 for public buildings.

Vesper Services At Presbyterian Church Friday, December 20

Vesper services will be held at First Presbyterian church on Friday December 20 beginning at 5 p. m., it was announced by Rev. E. O. Harrell, Minister.

The combined choirs of the Christian Church and the Presbyterian church will present the music. Rev. Roy Holt, pastor of the Christian church will direct the choirs.

Mr. and Mrs. Robert G. Foster of San Antonio spent the week end with her parents, Mr. and Mrs. Joe Hollas. Mrs. Foster is the former Maurine Foster.

CARD OF THANKS

We want our friends and neighbors to know of our deep gratitude for their kindness and sympathy so tenderly expressed to us during our recent great sorrow in the loss of our dear wife and mother. Your help and understanding helped us to bear the weight of grief and we will remember always your kindness. We thank those who gave flowers to express their sympathy and all who in any way sought to assist us.

O. C. Nolte and Family.

CHRISTIAN SCIENCE SERVICE

"God the Only Cause and Creater" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, December 8.

The Golden Text is: "Lord, thou art God, which hast made heaven, and earth, and the sea, and all that in them is" (Acts 4:24).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "By the word of the Lord were the heavens made; and all the host of them by the breath of his mouth" (Psalms 33:6).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Spiritual causation is the one question to be considered, for more than all others spiritual causation relates to human progress" (page 170).

DID YOU KNOW?

That according to last week's Baptist Standard our church gave to the Cooperative Program for the year ending in October $2,738.88? This means that because of your gifts through our Church budget this year $2,738.88 was divided in proportion to the need and was sent to Foreign Missions; Home Missions; Southern Baptist Seminary; Southwestern Baptist Seminary; Baptist Bible Institute; Relief and Annuity; W. M. U. Training School; American Baptist Theological Seminary. Aren't you glad that you had a part in giving this much last year? Help us to do that much and more this year by signing a pledge card and indicating your interest and support of our next year's work.

Mrs. T. S. Donaldson will leave in a few days for California where she will spend the summer.

Face Traffic

If you must walk on the highway, stay on the extreme left side facing on-coming traffic.

"Plan your work and Work your plan"

Long winter evenings bring families together after chores are done. Then there's time for serious talks and good fun. In December there's opportunity, too, to review the results of the past year's work . . . to make plans that can be carried out efficiently in the year that lies ahead.

Proper planning uncovers new opportunities in any business. With experience, know-how, and plain "horse sense" to draw on, plan-making should not be difficult. You think back with pleasure on your good crops . . . on how well your livestock or poultry programs turned out. You remember little things that made them profitable or caused a loss. With this in mind, you look ahead and decide on next year's crops and rotations. You think of ways to improve your livestock operations. You make provision for the purchase of breeding stock, seed, machinery, fencing and equipment. You consider your problems from all angles. That's the way a sound plan is made. Then you set your course and stick to it.

What's true of the individual farm or ranch is true of any business, small or large. We at Swift & Company well know that we, too, must plan our work and work our plan. Our business interests are many and varied. Without a plan and good business records, we would be almost certain to run into serious losses because our profit margin is small. But by planning carefully, diversifying and working efficiently, we—like you—hope to increase our earnings in the future.

A DOLLAR SAVED IS A DOLLAR EARNED

This true old saying has been an important guide in the business philosophy of Swift & Company right from the beginning of our history. And it always will be, because that is the *only* way anyone can make money in the meat packing business.

In no other business that I know of is there such a narrow margin of possible profit. In the purchase of livestock, for instance, our buyers compete with buyers representing 3,500 meat packing plants and 22,500 other commercial slaughterers. Then, we sell our products in competition with the same 26,000 slaughterers with whom we compete when purchasing the livestock. Because of this constant competitive pressure from both sides, our profit margins are very narrow.

Thus, *to make money we have to save money.* Yes—we, too, have to "plan our work and work our plan." That's why we are forever checking our operations to increase efficiency . . . to eliminate waste . . . to do our job better. That job is to process and distribute more than six and one-half billion pounds of meats and other products each year. Only on such a volume of business can tiny savings per pound add up to the profit which keeps us in business.

F. M. Simpson.
Agricultural Research Department

To all our friends on America's farms and ranches, we at Swift & Company wish

a Merry Christmas and a Happy New Year

J. John Holmes, *President*

TAKE TIME TO SAVE TIME

by L. S. Hardin, Purdue University

There is a labor-saving or labor-wasting way to do every farm job. Because we use too many old, hard ways, we waste 15 to 25 percent of our time. Greater attention to *how* we do our jobs can save time and work.

Ways of doing livestock work easier, faster and better are especially needed. Most farmers still use almost as much work to make 100 pounds of pork, beef or milk as they did 25 years ago. Yet, thanks mostly to machinery, we have reduced crop work one-fourth to one-half during the last 25 years.

Alert farmers are simplifying farm jobs, cutting chore time 15 to 50 percent. Five Indiana farmers, by carefully planning their work, are raising market hogs with one-quarter the average hours of labor. A Minnesota farmer rearranged his barn, adopted correct milking practices, saved 300 hours of work and 138 miles of walking a year. By rearranging his watering system, a poultry man saved 22 miles of walking a season. Some farmers are making hay in 90 man-minutes per ton. Others, using similar equipment but harder ways of working, spend twice the time.

What these farmers are doing, others can do, too. Know just what you want to accomplish. Figure out how to do a job the easiest, cheapest and best way. Cut out those unnecessary steps, combine jobs, rearrange barns and lots, work out more convenient chore routes, keep equipment busy, choose new equipment that suits your farm. Give new practices a fair trial.

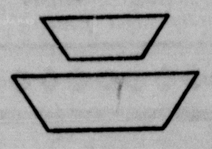

You'll find the easy way is the best way. Small improvements add up to days and dollars saved. Five minutes wasted a day equals 3 days a year; 5 steps a day amounts to a mile a year. With costs rising and profit margins due to shrink, *we can well afford to take time to save time.*

Soda Bill Sez:

. . . worriers die young; thinkers live long.
. . . a brain is no stronger than its weakest think.

Things are NOT always as they seem

Which is the longer—the top line of the top figure, or the bottom line of the bottom figure? Well—measure them and see!

Similarly, in the livestock-meat industry, conclusions based on a quick glance at a situation are not always so. A case in point is the "spread" between prices paid for livestock and the price received by the meat packer for the meat. The *fact* is that this spread is narrow. Out of every dollar Swift gets from the sale of its products, 75 cents, on the average, is returned to producers.

Can you name another business that returns such a high percentage of its sales dollar to producers of raw materials? Can you name any other business that performs so many essential services with the twenty-five cents left from that sales dollar? The twenty-five cents pays all business costs. Livestock-buying expenses, slaughtering, refrigeration and processing. The cost of selling the meat and delivering it to thousands of markets all over America. Necessary supplies, such as salt, sugar, barrels, boxes, paper. Ever-present taxes, etc. After all these expenses are paid, Swift's share averages, over a period of years, less than 2¢ on each sales dollar. This amounts to a fraction of a cent a pound of product handled.

OUR CITY COUSIN

City Cousin was the winner.
All the other children howl,
"No fair, he won on a fowl."

Martha Logan's Recipe for

ROAST TURKEY

Place stuffed turkey on a rack in an open pan. Do not add water and do not cover. Roast in a *preheated*, slow oven (325°F.) according to following schedule:

8 lbs. stuffed weight.....18 minutes per pound or 2½ hours
12 lbs. stuffed weight.....15 minutes per pound or 3 hours
14 lbs. stuffed weight.....14 minutes per pound or 3¼ hours
15 lbs. stuffed weight.....13 minutes per pound or 3¼ hours

Sausage Bread Stuffing

1 pound sausage meat
2 eggs
1 cup milk
7 cups bread crumbs
2 tablespoons diced onion
1 teaspoon salt
4 tablespoons chopped parsley
1 cup diced celery

For a 12 to 14 pound turkey

Pan fry sausage until brown. Drain. Beat eggs slightly. Add sausage. Mix remaining ingredients and pour over them the egg mixture.

Canadians Increase Limit Tourists May Carry Out

OTTAWA.—Customs inspectors at border points have been instructed to allow Canadians to carry $150 in cash or traveler's checks when crossing the border into the United States, officials of the foreign exchange control board said.

Of the $150 total, not more than $100 may be in United States funds. Previously Canadians were permitted to take only $50 in Canadian or U. S. funds across the border.

Officials said the permit "Form H" which previously had to be filled out for any amounts of more than $50 now is not necessary except for amounts in excess of $150.

Germans Given Increase in Food by Military Governors

BERLIN.—Deputy military governors for the United States and British occupation zones announced jointly that the daily food ration for normal consumers would be increased to 1,550 calories.

This action will put the two zones, now in the process of an economic merger, on a common ration. It will mean an increase of 400 calories daily in the British zone and 250 to 300 in the American zone.

Heart Tissue Dies at 34; Test Tube Life

NEW YORK.—Dr. Alexis Carrel's sliver of embryonic chicken heart tissue is dead at the age of 34.

Dr. Carrel began his experiment January 17, 1912, at Rockefeller institute, by placing a piece of heart in a test tube and feeding it chicken plasma and chicken embryo extract and pruning, washing and transplanting it to prove that tissue could be kept alive artificially. Dr. Carrel was able to make his point at the end of a year or so.

In 1940 he put responsibility for its sustenance on Dr. Albert H. Eberling at the Lederle laboratories, Pearl River, N. Y., who nurtured the heart until May of this year, when he retired and the heart was discarded.

Italian Christmas Industry

Naples was the center of the Italian Christmas industry during the Fifteenth century and had whole bands of artists, "figurari" as they were called, who did nothing but make dolls for Christmas.

Clothes Scarce Until Next Year

Survey of Industry Shows Shortage Will Run Well Into 1947.

NEW YORK.—In a survey recently completed here it was the consensus of industry sources that clothing shortages will hound the consumer and will continue to affect every member of the family at least until the end of the year.

Men's business shirts and children's underwear, women's lingerie and nylon hosiery were listed as just a few types of clothing in which supply is expected to get worse before it improves.

"All articles made of cotton or rayon are in short supply and will continue to be, at least until early next spring," one buying representative said.

Men of the family continue to be the hardest hit, and the children come next. The only real shortages facing the women are popular priced lingerie and nylons, which are expected to become progressively scarcer with approach of the Christmas season.

Output Controlled.

Some of the reasons given for continuing shortages were:

Unprecedented demand still eats up whatever merchandise reaches store shelves.

Some types of cotton goods are caught in a price squeeze. Textile ceilings have been increased to reflect a rise in raw cotton prices, but the ceilings of finished goods have not yet been raised.

Manufacturers of some types of rayon and cotton goods cannot fill their requirements for materials because of the increasing amount of output controlled by integrated setups in which one management handles all phases of production and distribution.

Certain mills continue to concentrate on sub-standard or non-standard types of cotton fabrics whereas the heaviest demand is for standard types.

Maximum prices allowed to be charged for goods made from priority materials in some instances are below permissible ceilings on the basis of cost factors.

Nylon yarn allocations to hosiery makers have been cut an estimated 10 to 15 per cent.

Shortages of skilled labor, lack of priority assistance in some cases and shortages of such materials as linings and pocketings have imposed additional difficulties.

In men's wear the supply of worsted suits is improving, but "it is unlikely that a supply-demand balance will be reached in men's suits before the fall of 1947," said Jerome Udell, clothing manufacturer.

Build Up Stocks.

Inventories of topcoats and overcoats are being built up gradually as are stocks of tweed and Shetland suits. But even by next fall, Udell said, it is doubtful that retailers will be able to build well-balanced and complete inventories.

Clothing sources said it was impossible to appraise immediately the effect of the order allowing men in the armed forces to wear civilian clothes when off duty, but they did not view it as too serious a problem.

While the CPA estimated it would send about two million more men clothes hunting, manufacturers considered it probable that their interest might center in casual clothes rather than in business suits, where the shortage is most acute.

National Association of Shirt and Pajama manufacturers described the shirt situation by saying "the outlook is as bad as it ever was." Men's underwear falls into the same category.

Retail inventories of shoes generally were said to be adequate at the moment, but the outlook depends on whether the supply of hides improves in the near future.

Most infants' and children's cotton knitted clothing is high on the hard-to-get list. Undershirts and sleepers are the scarcest items, while knitted panties are easier to find.

"We are going to feel the shortage of all cotton knitted underwear this winter," an underwear institute spokesman said, adding that heavyweight types are in shortest supply.

Will of Tobacco King Gives Five Millions to Charity

WINSTON - SALEM, N. C. — Five million dollars of an eight-million-dollar estate left by the late Mrs. Kate Bitting Reynolds, 78, of Winston-Salem, will go to religious, charitable and educational institutions, her will disclosed.

Mrs. Reynolds was the wife of William Reynolds, co-founder of R. J. Reynolds Tobacco company.

Chinese Dollar Drops Down To 4,100 for One U. S. Dollar

SHANGHAI. — Chinese dollars touched an all-time low — 4,700 to $1 U. S., then slumped back to 4,100 to $1. The action was attributed to such unconfirmable rumors as: government intends to revise the official exchange rate of 3,350 Chinese dollars to $1; government plans to check black market dealings in United States currency altogether, and that a new Chinese currency is expected.

Army Recruits No Longer Are Permitted to Pick the Spots

WASHINGTON.—The war department has had to hedge on a promise that volunteers signing up for three years could pick their spots and duty assignments, it was disclosed. The situation came about because so many recruits ask to serve in Europe.

An order by War Secretary Patterson said that "because of the constantly changing military situation," it is no longer possible to guarantee that a three year volunteer can serve in the theater or other assignment of his choice. Officials declined to disclose the figures but said that virtually no new men were being sent to Europe.

Another difficulty is that a disproportionate number of recruits have asked for assignment to the service branches, such as the quartermaster corps and ordnance department, rather than the infantry, artillery, and other combat arms.

Carroll Green of the Green Motor Company is in Detroit, Michigan. The company has recently obtained the agency for Chrysler cars and built a new sales building.

Mrs. Dan Robinson of Milano visited in Cameron this week on her way to Temple where she spent the holidays with her daughter and family.

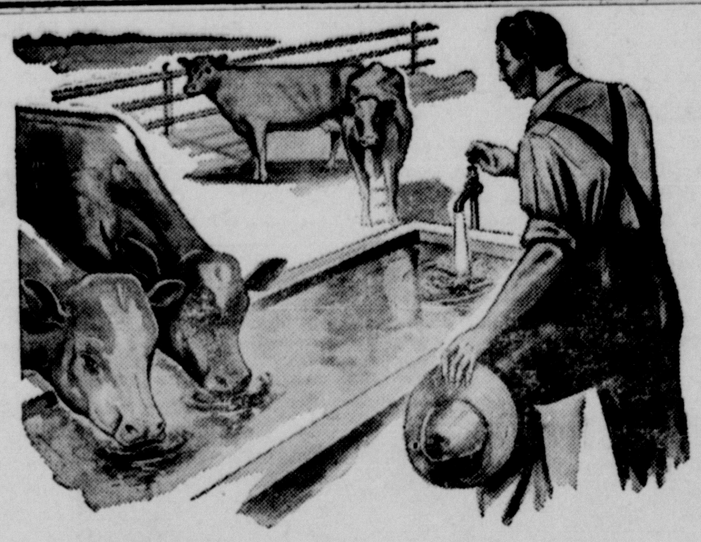

PLAN CHRISTMAS DINNER

Plan to prepare as much of the meal as possible on the day prior to Christmas so that the housewife can enjoy the day with her family.

NOTICE
To The Public

All of the land which I own or have rented in Milam County is being and will continue to be poisoned against grasshoppers, other insects, and other pests until March 1, 1947. My land is posted according to the requirements of the law. The poison will be dangerous to depdedating livestock (cattle, horses, mules, sheep, goats, and or hogs), and I hereby warn that I will not be responsible for the harm done to any livestock trespassing on my land.

MRS. L. K. SMOOT

THIS BEATS THE "GOOD OLD DAYS"

In the so-called "good old days" water had to be pumped by hand and many other back-breaking jobs made the farmer's day a succession of tiresome chores.

But life on thousands upon thousands of Texas farms has been changed. Rural electrification, pioneered in Texas by Texas Power & Light Company, has shortened the working hours by relieving the farmers of scores of jobs. On the modern Texas farm, electricity provides running water just like city folks enjoy . . . preserves foods through refrigeration and freezing . . . saws the wood . . . milks the cows . . . and does scores of other things to help both the farmer and his wife.

Since 1915, Texas Power & Light Company has been extending its rural lines to bring dependable, low-cost electric service to farm and rural homes. By 1921, the Company was serving 6,926 rural and farm families and today serves from its 7,000 miles of rural lines more than 68,000 farms and rural homes in North, Central and East Texas.

Back in 1927, John W. Carpenter, president of the Company, called a special meeting of officials of other power companies, farmers, business men and representatives of state educational institutions, at which meeting the Texas Committee on the Relation of Electricity to Agriculture was formed. This Committee has, since its inception, conducted research to speed up farm electrification and has advised farmers on the efficient use of electricity on the farm.

Prize Essays on 'Home Loyalty'

By MARY NELL McCLELLEN

If the citizens of Cameron will not support her, then who will? Cameron has as many products of the common sort as any other city; therefore, we should buy our everyday necessities in our own community and go elsewhere only when what we wish to purchase is not available here.

There are several reasons for this statement. If we spend most of our money out of Cameron, then her financial position is endangered; while if we spend our money here, it is kept circulating in the city. Everyone is benefited.

If Cameron is to be improved and enlarged, she will have to have the support and backing of her people. We do not want Cameron in a rut; and if there is a large retail demand, there will be new businesses set up, which, in turn, will benefit the entire city.

To make our city grow let's get behind her with our time, money, effort and support.

By PEGGY POSEY

Have you ever thought about why you, as a citizen of Cameron should do your trading here? I have and here are some of my reasons for trading here. I live and get my education in Cameron, and my father makes his money in Cameron, thus, I should spend my money here.

If more people trade in Cameron, the merchants and business men can afford to enlarge their stock and their places of business.

By shopping in Cameron, I help to create more jobs for the people here and thus decrease unemployment.

More businesses in Cameron means more taxes, which will go for bettering the conditions here. It helps us to have better schools i which I and other future citizens of the United States can secure our education. It also helps us to have better public buildings, roads and parks.

Next time I start to go shopping in another town, I'll ask myself whether the citizens of this town contribute anything to my well-being in Cameron. The answer to this question will be no, because they are trying to build a better city for themselves.

If we all co-operate, Cameron can and will be a great trading center.

Chamber of Commerce

Let's Talk Agriculture

BY BILL ARTHUR

The season of the year is approaching when a very destructive parasite makes its appearance in cattle. It is the cattle grub or commonly called wolves and warbles. This parasite causes farmers and stockmen greater losses than others that we consiantly guard against.

Grubby cattle are discounted from 1-2 to 1 1-2 cents per pound on the market, which averages $3.86 per animal marketed last year. Approximately 15 per cent more feed is required and the milk flow is reduced about 25 per cent.

We can control these grubs by spraying, dipping or dusting with Cube or Derris and 5 per cent rotenone. When dusting cattle for grubs, 1 lb. will dust 8 cows. The dust cost only about 9 cents per pound so the cost is about 1 cent to eleminate the grubs.

42 Party Tonight

Beginning at 7:30 a 42 party will be given at the Knights of Columbus Hall. You are cordially invited to attend. Come and enjoy the evening.

13 Bus Seats Left For Fredricksburg Game; Hurry For Tickets

If you hurry around to J. C. Penney Company you might be able to get a football ticket and a ride on a bus.

W. T. Hanes, superintendent of schools, said early Tuesday that there were just 13 seats left on the buses going to the game at Fredricksburg Friday night.

J. M. Boehner at the J. C. Penney store will sell 13 tickets and guarantee seat on bus, if you hurry and someone hasn't already beat you to them.

Mr. Hanes said the buses will leave Cameron at 1 p. m. Friday for Fredricksburg.

Mr. Hanes said that the buses will be from the Arrow Coach Lines.

Miss Almarae Brady has returned to TSCW after spending the Thanksgiving holidays with her parents, Mr. and Mrs. Chas. Brady.

Jack Lewis of Austin and his sister Miss Rebeca Joe Lewis of San Antonio spent the past week end with their mother, Mrs. Jack Lewis.

Talkie Work of Many Experts

Large Contribution of Bell Laboratories to First Sound Film Told.

NEW YORK. —Scientists in many fields and organizations have contributed to the extensive improvements that have been made in sound motion pictures in the 20 years since they were first introduced.

One of the leading contributors was the Bell Telephone laboratories, and its part in the development of sound pictures has been told by the magazine of the American Telephone and Telegraph company.

"The story of the development of successful sound picture apparatus by the Bell system goes back to 1912," the magazine says. "In that year a young inventor named Lee deForest showed to Western Electric engineers one of the great inventions of all time—the three-element tube he called the "audion.' In that tube, he was sure, would be found the answer to the problem of amplifying weakening telephone conversations as they traveled along long-distance telephone lines. Accordingly, the Bell system purchased the deForest audion in 1913 and telephone engineers immediately set to work to see what it could do.

High Vacuum Tube.

"Led by H. D. Arnold, Bell system scientists emerged with the high vacuum tube which was to be the fundamental agent making it possible to establish a transcontinental telephone system. But more than a first class amplifier was needed. Higher quality transmitters and a wide variety of associated apparatus also had to be designed. Much of it might be tested and compared by using sound recordings.

"The engineers who began initiating these studies of sound found it necessary to obtain recordings of far higher quality than those available by the commercial processes of the contemporary phonograph industry. Therefore they began to experiment with the recording of sound on film (an old but still fairly primitive laboratory art) while simultaneously seeking to improve the wax disk method of recording.

"Meanwhile, attention was given to the development of an improved microphone which would give uniform response to all pitches in the audible range. The magic of the high vacuum tube amplifier made it possible to design the condenser microphone, which, unlike previous 'mikes,' did not need to generate its own power.

Elements of Sound Film.

"The scientists working with new recording techniques likewise were achieving superior results. By 1916 they had developed two improved methods of recording sound on film and also were able to obtain fine results from wax disk recordings. A high quality public address system was the next achievement.

"By this time, then, Western Electric engineers had all essential elements for producing a sound motion picture, namely: (1) a high quality microphone capable of transmitting a wide range of sound frequencies without distortion, (2) the vacuum tube amplifier, (3) superior methods of recording sound on film and wax disks and (4) a loud speaker of high quality capable of delivering undistorted and amplified sound in a wide range of frequencies.

"An improved device for synchronizing motion pictures with electrically produced sound was constructed and the engineers believed it was time to see whether they could successfully make sound movies. Using the wax disk method, they produced the first electrically recorded talking picture, which was exhibited at Yale university October 27, 1922."

Crash Halts Traffic Debate in the Commons

LONDON. — An auto being pursued by a police car at 70 miles an hour through London's streets crashed through the railing outside the houses of parliament.

It hurtled down 12 feet onto the house of commons "Speaker's Green."

The crash interrupted a debate on the traffic code.

Girls in American Legion Doff Uniforms for Civvies

PHILADELPHIA.—The American Legion instituted its first all-women post here recently but the ladies took the oath in civvies. Said Margaret M. Schafer, post chairman:

"We thought about wearing our uniforms but for the sake of those who aren't the same size as they used to be, we decided on dresses."

Russ to Return to Germany 21,000 Interned During War

BERLIN. — The Soviet military government here announced that the Russians were returning to Germany 21,000 Germans, including women and children, who "for various reasons" were interned in the Soviet Union during the war.

The announcement added that more than 3,000 of these already had been returned to their homes in Thueringen.

COTTON GINNING REPORT

Census report shows that 9,353 bales of cotton were ginned in Milam County Texas from the crop of 1946 prior to Nov. 14, 1946 as compared with 15,694 bales for the crop of 1945.

Very respectfully,
J. C. THOMPSON,
Sepcial Agent.

Mrs. W. T. Whatley, Sr. who has been seriously ill in a hospital, is much improved and has been taken home.

Phone your news items to 282.

Mr. and Mrs. R. H. McIntosh have returned from Marlin where they spent a week in Torbett Hospital taking a checking over, and for the mineral baths, and are much improved.

Valuable Ivory

Ivory of the greatest value is found in the tusks of the hippopotamus. It is worth about three times that of the ivory procured from the elephant.

From where I sit ... by Joe Marsh

How to Stop Worrying

I guess folks in our town do about as much worrying as in yours—over housing and prices, and crops, and jobs—and the little domestic problems that are always coming up.

Dad Hoskins, who's lived to the happy age of eighty, has a simple formula for stopping worry. About every problem, he asks himself: Is there anything I can do about it? If there is, he never postpones making a decision, or taking necessary action.

If there isn't anything he can do about it, he sets aside a "worrying hour" after dinner, and gets his worrying over in one concentrated period. When that's over, he relaxes over a friendly glass of beer with Ma Hoskins—and they talk about pleasant things together, until bedtime.

From where I sit, that's as workable a formula as you could find ... right down to the mellow glass of beer that seems to wink away your worries.

Joe Marsh

Fight to Bridle Unruly Missouri

Army Engineers Are Making Progress in Battle to Control River.

GLASGOW, MONT.—Progress is being made by army engineers in their battle to control the unruly Missouri river.

They built, 10 years ago, with 10,000 workmen, the country's largest earth-fill dam—a huge mountain of soil, steel and concrete, which stemmed the river's vigorous flow and started to battle the water into a vast shallow lake here on the northeastern Montana prairie.

As part of the Fort Peck flood control job, they dug four tunnels through which the river could be diverted, subterranean passages deemed large enough to handle the river during its most unruly moods.

Now they've finished and are testing a giant spillway, an "insurance" project designed to supplement the tunnels. It's a concrete-lined ditch considered capable of handling any volume of water that conceivably might be produced by a flood far greater than any in the Missouri's notorious record.

To Rely on Spillway.

Engineers say that, should the occasion ever arise in centuries to come, the spillway itself easily could accommodate a deluge equal to the normal flow of the Mississippi at St. Louis.

Principal features of the spillway project are a mile-long channel and a steel structure. The latter is 800 feet wide—the channel's maximum width—and it supports 16 vertical lift gates each 25 feet wide and 40 feet high (or deep). It is traversed by an automobile highway 86 feet above the spillway floor.

The channel deepens and narrows to about 100 feet, finally disappearring into a dirt ditch which leads to a stilling pool.

Several score army engineers and geological survey men observed the first operational tests of the spillway. They mounted cameras atop the gate structure to photograph operations, and telephones to co-ordinate them. Below the gates, men stood on catwalks and perched on cableways with instruments to measure the exact flow.

Dethroned Monarch Leaves Bulgaria to Join 'Grandpa'

ISTANBUL, TURKEY. — A boy king who lost his throne came out of Bulgaria en route to Egypt to join his royal grandpa in exile.

Pale and almost bewildered, nine-year-old Simeon, the son of the late King Boris and last of the Coburg dynasty which crumbled in the recent plebiscite, arrived on a small special train direct from Sofia.

There was none of the pomp monarchs know, only masses of people drawn by the lure of nobility. He stared straight ahead as police whisked him from the Sirkedji station to a wharf across the Golden Horn. There he boarded the Turkish steamship Aksn and sailed in the afternoon for Alexandria.

With him were his queen mother, Joanna; his 13-year-old sister, Marie Louise, and Princess Evdoxie, sister of Boris. Expected to be waiting for them in Egypt is aging Victor Emmanuel of Italy, father of Simeon's mother.

CHRISTMAS! WHAT DOES IT MEAN TO YOU?

Christmas means many things. It brings warm memories of other years, of friendship in youth, of the inexpressible, boundless joy of childhood on wakening to find a great heap of gifts. It brings more than memories—anticipations of joyous reunions, of a grand Christmas dinner, of a long afternoon before an open fire among good friends.

Most of all, perhaps, it brings the mythical delight of seeing your own children as they cry with joy on opening their beribboned packages. For most of us grown-ups, the thrill of the holiday season is in sharing the delight of little ones who are dear to us. We plan and sacrifice and busy ourselves with secret preparations, that our youngsters may be supremely happy on Christmas Day.

WATCH NIGHT

On New Year's eve midnight masses and watch night services are held everywhere, while those less inclined to religious observances make the closing minutes of the year an occasion of jollity.

J. T. Howard of Freeport visited in Cameron and the Yarrellton community last week. Mr. Howard is with Dow Chemical, and attended to business in this county while the men of that company are on strike.

Steps Out to Buy a Drink And Returns 6 Years Later

PATERSON, N. J.—Arthur Pacific was back with his wife, Louise, and five children, six years and eight months after he "stepped out" to a corner tavern for a drink.

It was a strange odyssey for the Paterson watchmaker, for the drink which he took in January, 1940, led from the tavern to a ship which took him to Naples, Italy, and eventually he was sent to a labor camp in Potsdam, Germany.

Pacific said he was apparently "drugged" for he "came to" in Gibraltar, aboard an Italian ship. When it docked at Naples, he said, he was sent by the Italians to Germany. The Germans, he said, put him to work in a displaced persons camp in Potsdam.

Three Sergeants Shielded by Belgrade Embassy Fly to U. S.

WASHINGTON.—Three American sergeants who spent seven months under the protection of the United States embassy in Belgrade to avoid possible arrest by Yugoslav authorities were brought here by plane.

An army officer said they were due to come home some time ago. Their return was delayed while plans were made by the embassy for safe conduct.

'Gold Rush' On, but Few Find Much Gold

CRESCENT CITY, CALIF. — Unbearded prospectors still were fumbling through Crescent City in California's latest so-called gold rush, despite the warning voiced by old hands at the game that all is not gold that glitters, and this may be no "bonanza."

State and federal mining men, rooting about for evidence of a big strike, hinted that perhaps there ain't no gold in them thar hills.

Thus far, they explained, the only gold in evidence is a few small pebbles displayed by Ernest Hay, city assayer. These samples were brought in from the Rattlesnake Ridge low divide country by an old prospector, Tom Cronin.

Hay put the ore through his special assay process and came up with the announcement: "This is rich stuff!"

Within a matter of hours the stampede was on.

Refugees in American Zone Increase 44,000 in Month

FRANKFURT, GERMANY.—Displaced persons in the United States occupation zone increased 44,000 last month for a total of 547,478, the army announced. Poles lead with 184,439. Listed as Jewish are 139,026. In the first two weeks of September 9,119 persons, including 8,246 Poles, were repatriated, bringing the total to 2,421,103 since repatriation began.

Jeep Substitutes for Mule Team; Does Work of Six

WENATCHEE, WASH. — Former G.I.s will not be surprised to hear that a jeep did the work of six pack mules.

The little jeep, belonging to a rancher, kept water supplied to a stand-by crew of forest fire fighters in rugged Pitcher canyon.

Forest service officials had thought the crew could be reached only by pack mule.

Six New Stars Found; Weigh 1,000 Tons Per Cubic Inch

MINNEAPOLIS, MINN.—University of Minnesota reported discovery of six new white dwarfs, a group of strange stars weighing up to 1,000 tons per cubic inch.

The university's announcement came as Prof. Willem Luyten, university astronomer, told of the discovery in an address scheduled for delivery in Cordoba, Argentina, during the 75th anniversary celebration of the Argentine national observatory.

Luyten and Dr. Paul D. Jose of the University of Arizona made the discovery. The white dwarfs represent atoms and matter existing under conditions which cannot be duplicated in existing laboratories. Because of this, Professor Luyten was quoted, the discovery is expected to lead to important conclusions concerning atomic structure and to new knowledge of atomic energy.

Sales of Retail Merchants Are Up 10 Per Cent in Month

WASHINGTON. — Sales of independent retail merchants for August were 10 per cent higher than in July and 33 per cent above August, 1945, the census bureau announced.

In the durable goods field, motor vehicle dealers showed a sales increase of 170 per cent over August, 1945, while furniture stores recorded a gain of 54 per cent; hardware stores, 50 per cent, and lumber-building materials dealers, 32 per cent.

Department stores headed the non-durable goods trade with a gain of 38 per cent over August, 1945. Other gains included apparel stores, 32 per cent; filling stations 28 per cent; dry goods and general merchandise stores, 28 per cent; general stores, 26 per cent; food stores, 25 per cent and drug stores, 18 per cent.

Buy Embassy In Rome With Surplus Property

ROME. — One of the most beautiful buildings of Rome, the Margherita palace, has been bought by the United States government to house the U. S. embassy offices in Rome.

Sale price of the palace was set at $1,250,000 worth of surplus American property, which already has been transferred to the Italian government.

Palazzo Margherita was erected about 1878 by the Roman architect Gaetano Kock for the Princess Boncompagni and Ludovisi of Piombino. It became the residence of Queen Mother Margherita, widow of Umberto I and mother of Victor Emmanuel III in 1900.

It was first utilized by the United States embassy, July 14, 1944, a month after Rome fell to the Allies.

Baffling Problem

The proper celebration of Christmas has been improved, but there still is the problem of getting a six-foot Christmas tree home in an overcoat pocket.

Some people try to attract attention by nastiness which merely shows what kind of people they are.

The spread of religion is often handicapped by the ignorance of those who think they have it in excessive quantities.

Brewed in England's Yuletide wassail bowls are baked apples, hot ale sasoned with spice, orange juice and rind and whipped eggs.

POULTRY EXHIBITS HERE ATTRACT LARGE CROWDS

Central Texas Poultry Show sponsored by the Cameron Chamber of Commerce was a major exhibit of better poultry and attracted large crowds here on November 22 and 23. The exhibits were held in the Knights of Columbus Hall.

Premiums were awarded for three or more birds in a class, the first prize $1.00. Second prize 75c and third prize 50c. For two in a class first and second ribbons were awarded.

Premiums for pens, three or more in a class, first $1.00; second 75c and third 50c. Two in a class, 1st ribbon and 2nd, ribbon. One pen in a class, ribbon.

The best display in the show was presented by Fuchs Brothers Ideal Hatchery and Poultry Farm of Cameron.

Bill Arthur, Agriculture Teacher in the High School, directing the show says the exhibit was a big success. Judging was done by W. D. Seals, county agent of Bell County.

Prizes were awarded as follows: Australops, pullets: 1st, Judson Storey, Cameron, 2nd, A. L. Zelisko, Buckholts; 3rd, Judson Storey.

Hens: 1st, 2nd and 3rd prize was given to Judson Storey.

Cockerels: 1st, Judson Storey; 2nd A. L. Zelisko; 3rd, Ideal Hatchery.

Jersey White Giant pullets: Monte Angell, Cameron, received 1st and 2nd prize and Edsel Burnett, Cameron received 3rd award.

Jersey Black Giants, pullets: Monte Angel received 1st, 2nd and 3rd urize.

Rhode Island Reds, pullets: 1st, 2nd and 3rd prize was given to Anton Mikula of Cameron.

Cockerels: The three premiums were given to Ideal Hatchery of Cameron.

New Hampshire Reds, cockerels: Ideal Hatchery received all three prizes in this exhibit.

White Leghorns, pullets: Ideal Hatchery received 1st and 2nd premium; Bill Arthur received the 3rd award.

In the production class Ideal Hatchery received all three premiums.

In the Barred Rock class of pullets Frank Hubnik of Cameron received all premiums.

In the White Rock class of hens, Bill Weideman of Cameron received all three premiums and 1st and 2nd award in the pullet class.

Thomas Thweatt of Cameron received 3rd premium in pullet class.

Willie Vogelsang of Cameron received all three premiums in the turkey hen class.

In judging the champion young pen of the show, $1 was awarded Ideal Hatchery; champion pullet, Ideal Hatchery; champion cockerel, Rhode Island Red; Ideal Hatchery; champion hen, Barred Rock; Frank Hubnik. Champion Cock, Barred Rock; Frank Hubnik. Grand Champion female of show, white leghorn pullet; Ideal Hatchery; Grand Champion male of show, Rhode Island Red Cockerel; Ideal Hatchery.

W. A. Price, representative of the American National Insurance Company for the past year in Rosebud, Cameron and Rockdale has been promoted to the position of Assistant Superintendent of the Waco office which became effective November 11.

Phone your news items to 282.

Fury Controlled.

A man pulled levers in a control tower at one end of the gate structure, and six huge gates opened noiselessly and cautiously for just a few inches.

Fan-shaped water spurted through the small apertures, forced out by tremendous pressure. The fans joined and a body of water leaped into the dry channel, foaming and churning down the spillway. Within seconds the gates had disgorged a high, white-capped wall of water that gained momentum as it rushed toward the stilling basin.

As the surging crest hit the basin, waves dashed high into the air and yard-long paddlefish, far from their normal Mississippi haunts, were hurled skyward, helpless in the raging current. With every passing moment, the brand-new river deepened and the water churned into cross-currents and whirlpools.

In the stilling basin, the water lost much of its fury. It swept easily but swiftly into a nature-made valley through the badlands which carried it nine miles below the Fort Peck dam and into the Missouri's proper channel.

Frankly, there is something absurd about an economy that pays prize fighters more money in a night than a teacher can earn in a life-

---

CARD OF THANKS

We wish to express our sincere thanks and appreciation to our many friends who did so much for us at the passing of our dear loved one, Mrs. Albena Lesovsky. To Dr. W. R. Hall of Marlin, and to each one who in any way assisted us at this time of sorrow, we are truly grateful.

The family of Mrs. Albena Lesovsky.

The family of Frank Lesovsky.

Plucking Ducks

Plucking of ducks can be made much easier if the ducks are first dipped in a mixture of hot water and melted paraffin.

A Penny's Worth of Lone Star Gas Service still cooks a dinner for three people

Lone Star Gas Service costs less today than before the war. It is one of few costs of living which has been reduced since 1941.

Lone Star Gas Company

Warning!

On Fire Losses

In the corporate limits of the City of Cameron, our Fire losses from 1940 through 1945, a period of five years, were $32,776.78.

This property is wasted in preventable fires, destroyed and gone forever in smoke and ashes.

A lot of people are seeking a place to live, in the city's most acute housing shortage.

This critical problem can only be met by in-individuals in united effort, in constant caution to prevent fire, wherever fire can start.

Cameron Volunteer Fire Department

Record Is Set By Paper Mills

Product Is Now Rolling Out At the Highest Rate in American History.

NEW YORK.—Exclusive of newsprint, paper and paper products now are rolling from American mills at the highest rate in history, and the gap between supply and demand in most categories may be closed by the end of the year. One of the major shortages, according to industry leaders, appeared to be in paper for the book and magazine trade.

Chief difficulty in this division was not to determine supply — estimated to be about 400,000 tons greater this year than last—but to guess the future demand, since the recent hike in OPA wood pulp ceiling prices of about 10 per cent could work two ways:

Production might be spurred by attracting more pulpwood from farm woodlots and adding profit incentive at the mill level.

Cost May Go Higher.

But, at the same time, the cost of paper might go to a point where publishers would drop some of their marginal publications and print fewer books.

Total U. S. production of paper and paperboard in August was estimated at 1,715,710 tons by Dr. Louis T. Stevenson, economist for American Paper and Pulp association. Daily average production was running about 17 per cent ahead of last year.

The industry entered 1946 hoping to produce at a rate of about 18 million tons domestically this year. Present production is at a rate of more than 20 million tons a year.

Estimates for 1946 have been revised as follows: Domestic production, 18,620,000 tons; imports, 3,100,000 tons; exports, 475,000 tons; giving American consumers 21,245,000 tons of paper and paper products.

The gap between supply and demand has been steadily narrowed. One industry source estimated that at the end of June supply was running one million tons behind demand, but the association believes that the gap should be "whittled down to reasonable dimensions by the end of this year."

Future Trouble Spots.

There are, however, several future trouble spots.

Swedish pulp, on which American mills have depended in the past to fill the gap between American production and American needs, has practically stopped coming in, and the OPA price rise of 10 per cent—designed to meet the 10 per cent increase in the value of the Canadian dollar—fell short of meeting a 14 per cent hike in the value of the Swedish krona.

The Swedes shipped about 200,000 tons to the United States so far this year, and Finland 69,000 tons. If the price incentive boosts total domestic production by 6 per cent, loss of the Swedish shipments would be offset.

Little more is expected from Sweden because, American mill owners pointed out, the Swedes can sell all their pulp in European and South American markets at prices above the American ceiling.

Consumers of paper noted with satisfaction that several pulp mills being built in Canada are about ready to start production.

Catholics Are Translating Bible Into Modern 'American'

BOSTON. — First "American" translation of the Catholic Bible is under way in this country, complete with "phrases and spelling proper to ourselves rather than to the English," reports the Rev. Matthew Stapleton, former head of the American Catholic Biblical association, which is charged with the translation.

So far, the group of Catholic scholars has put the first five books of the Old Testament into modern "American" from the ancient Greek and Hebrew texts.

To preclude possible bafflement of Bible readers outside the United States, two other Old Testament translations into English are in progress in England.

CHRISTMAS MEDLEY

* * *

Although turkey is the essential feature of Christmas dinner today, the bird was unknown in England in the 16th century. Introduced from America, it came into its present popularity in the early 1700s.

* * *

In several states of the Union there is a definite law forbidding anyone from interfering with a child's belief in Santa Claus.

* * *

Some European peoples have a superstition — dating from ancient times—that animals take on the power of speech at Christmas time.

* * *

Lewis Carroll wrote his famous book, "Alice's Adventures in Wonderland," as a Christmas gift for a little girl who was the daughter of one of his friends.

Getting a Shoefull in Holland

Not on reindeer but on a white horse, St. Nicholas arrives in some parts of Holland, and instead of looking for stockings he searches for wooden shoes to fill them with gifts.

The loudest lamentations of the century will arise from business and industry when the government gets out of business, cutting out subsidies, legislative favors and regulations protecting monopolies.

The Ford Roberts' Are Parents of Baby Son Born November 26th

Mr. and Mrs. Ford Roberts have announced the arrival of an 8 pound 12 ounce son born Tuesday, November 26, at Cameron Hospital.

He has been named Rokki, and is the grandson of Mr. and Mrs. George Leath of Cameron, and Mr. and Mrs. L. E. Roberts of Houston.

Mr. and Mrs. Roberts have a 3 and half year old daughter, Dawna Faith. The mother is the former Virginia Lea Leath. Mr. Roberts is employed with the Henry Dreyer Tin Shop.

Mr. and Mrs. Archie McLerran spent the holidays in Beaumont with their children, Mr. and Mrs. Ralph McLerran.

Football Tickets Are Here; Now On Sale At J. C. Penny Store

Tickets for the Bi-District game between Cameron and Fredricksburg there on Friday, December 6 reached the city shortly after noon on Friday and were immediately placed on sale at the J. C. Penny Store.

J. M. Boehner began early Friday to take applications and cash for these tickets. They will be on sale at the store all day Saturday and in the evening as long as the store remains open.

All ticket sales here must be reported by Monday at noon. A total of 320 adult tickets were alloted to Cameron besides a section for students.

Christmas was once abolished by an act of parliament in England. That was in 1644 when the Puritans under Oliver Cromwell governed the realm. The Puritans' disbelief in holiday enjoyments was so intense that parliament ordered Christmas to be observed as a strict fast day. No roast beef, no plum pudding, no wassail were permitted.

Mr. and Mrs. Tom Tabon visited their daughter, Mrs. Kerns who is ill in Hearne.

Santa Fe Film Shown At Rotary On Navajo Indians In Mexico

One of the most enjoyable programs in recent months was given at the weekly luncheon of the Rotary Club on Wednesday by W. H. Benson, publicity and advertising director for the Santa Fe Railroad.

W. DuBois, local Santa Fe Agent, was in charge of the program and Lester Williams was program chairman.

The film was a colorful account of the romantic life of the Navajo Indians in New Mexico who live on the largest reservation in the United States. A number of the Rotarians have seen the Navajo country around Gallup and all enjoyed the program.

Miss Helen Salac Is Bride of W. A. Morris In St. Monica Ceremony

Miss Helen Salac, daughter of Mr. and Mrs. Frank J. Salac of Cameron, and Wilbert A. Morris, son of A. Morris of Waco were married October 29 at Saint Monica Catholic church in Cameron.

The ceremony was performed at 9 a. m. by the Rev. George Duda, before the altar adorned with white chrysanthemums.

Marvin Farek of Waco was best man, and the bride's attendant was her sister, Miss Caroline Salac who wore a brown suit with brown accessories and a gardenia corsage.

The bride wore a gold suit with brown accessories and orchid corsage.

Following the wedding a reception was held at the home of the bride's parents.

The bride is a graduate of Yoe High School in Cameron and of Providence Hospital school of Nursing in Waco.

The bridegroom is a graduate of Waco High School and is a World War veteran.

The couple will make their home in Waco at 2712 Grim Street.

Guests at the reception were: The Rev. George Duda, Mr. and Mrs. John Mraz, Mr. and Mrs. Frank Valka, Lillian Valka, Mrs. Rose Valka, Adell Valka, Mr. and Mrs. Joe Zalesky, and family, Leo Plachy, Mr. and Mrs. Henry Hlavacek and family, Mr. and Mrs. C. Zarosky, Mrs. Schattle, Mrs. E. Zalesky, Larry Hackebeel, Mr. and Mrs. Joe Farek of Waco, Mr. and Mrs. Albert Zajicek, Buckholts; Mr. and Mrs. J. Cabron, Burlington; Mrs. Carl Schuett, Waco; Miss Rosalie Salac, San Antonio; Mr. and Mrs. Arthur Peevey, Waco; Miss Mary Haelscher, Waco; Miss Dorothy Schiemtz, Waco.

BOYCE HOUSE GIVES YOU TEXAS

Add to "items that have changed since I was a boy:"

Prizefighters don't have the picturesque names they used to have. The negro boxers who fought in the old Phoenix Athletic Club in Memphis, Tenn., had such handles as Joplin Ghost (he was a scientific boxer); Hock Bones and, even more striking—the name, not necessarily the punches—Egg-head Ratty.

Of a public official who fancied himself as a speaker, a rival said, "He never opens his mouth but what he substracts from the sum total of human knowledge."

Then there was the statesman who answered the speech of an opponent with, "The gentleman is indebted to his memory for his humor and to his imagination for his statistics."

Even a little "column" like this gives one an opportunity to strike a blow for the people of Texas.

A few years ago, a bill was introduced in the legislature, which would have had the effect of confiscating 3,000,000 acres of land rightfully belonging to the public schools and placing that land in the hands of oil companies. These tracts were known as vacancies and their potential mineral wealth gave them value which might reach $100,000,000.

School leaders were fighting to protect the birthright of the boys and girls. Through this "column" the facts were told to about a million readers of 200 weeklies. The article was quoted in debate in the legislature and the bill was modified to safeguard the rights of the school children of this state.

Any time we learn of a good cause, such as that, to which we can lend a little assistance, it will be done.

Mr. and Mrs. V. A. Kubecka had as their holiday guests the past week end, their children; Mr. and Mrs. Louis Kubecka and daughter, Kay Evelyn from Austin, and Mr. and Mrs. LeRoy Kubecka of Shrevesport, La. They also had as supper guests, Mr. and Mrs. Ed Kolba of Buckholts and Clayton Kolba of Denton.

Judge John Watson has returned from Dallas where he visited with relatives and friends.

PRIZE WINNING
HOME LOYALTY ESSAYS

By MARY NELL McCLELLEN
By PEGGY POSEY

Have you ever thought about why you, as a citizen of Cameron should do your trading here? I have and here are some of the reasons for trading here. I live and get my education in Cameron, and my father makes his money in Cameron, thus, I should spend my money here.

If more people trade in Cameron, the merchants and business men can afford to enlarge their stock and their places of business.

By shopping in Cameron, I help to create more jobs for the people here and thus decrease unemployment.

More businesses in Cameron means more taxes which will go for bettering the conditions here. It helps us to have better schools in which I and other future citizens of the United States can secure our education. It also helps us to have better public buildings, roads and parks.

Next time I start to go shopping in another town, I'll ask myself whether the citizens of this town contribute anything to my wellbeing in Cameron. The answer to this question will be no, because they are trying to build a better city for themselves.

If we all cooperate, Cameron can and will be a great trading center.

If the citizens of Cameron will not support her, then who will? Cameron has as many products of the common sort as any other city; therefore, we should buy our everyday necessities in our own community and go elsewhere only when what we wish to purchase is not available here.

There are several reasons for this statement. If we spend most of our money out of Cameron, then her financial position is endangered; while if we spend our money here, it is kept circulating in the city. Everyone is benefited.

If Cameron is to be improved and enlarged, she will have to have the support and backing of her own people. We do not want Cameron in a rut; and if there is a large retail demand, there will be new businesses set up, which, in turn, will benefit the entire city.

To make our city grow let's get behind her with our time, money, effort and support.

LIGHT VOTE CAST HERE THURSDAY, NOVEMBER 5

Returns from the general election held in Milam county on Tuesday November 5 disclose the lightest vote in recent years. Not more than 1375 votes were cast.

Interest centered on the proposed constitutional amendments. The brutal Democratic majority was registered as usual in balloting for officials.

The Republicans polled 81 votes for United States Senator in voting for Murray C. Sells while Tom Connally the Democrat received 1285.

Eugene Nolte, Republican candidate for Governor received 56 votes.

Due to the death of the late Judge Jeff T. Kemp two days before the election there was a limited write in with Ed Gunn, retiring County Attorney, receiving 120 votes. Roy Baskin, Cameron city attorney, received 60 votes; Grady Stidham, retiring Commissioner in Precinct 2 received 6 votes and O. D. Graham, Thorndale lawyer, 4 votes.

Two of the proposed Amendments carried. They are No. 1 authorizing the Legislature to appropriate funds for the building at John Tarleton Agricultural College. No. 3 authorizing the Legislature to appropriate all funds derived from stated taxes to the exclusive use of the Highway Department in acquiring rights of ways and building highways and Farm to Market roads. The vote on the No. 1 was 732 for and 383 against. On No. 3 902 for and 231 against.

The voters turned down the No. 2 proposed amendment authorizing social security for state and county employes through a system of taxes and salary levies by a vote of 629 against 486 for.

Robert Fikes Writes From Germany Trying To Locate His Buddy

15 November 1946
Giessen, Germany

Dear Mr. White:

Guess you are wondering just who this is so I will tell you right away also just why I am writing this letter to you. I am Ramyond Fikes son, and I have a Buddie who lives in Rockdale, who came over seas the same time that I did but we were split up and I have been trying to get his address ever since March but so far I haven't succeded so I want you to run an add in your paper for me asking anyone who knows the address to please drop me a letter telling me the address. I will send you a money order paying for the add if you will only send me the bill and I will appreciate it very much.

A friend,
Robert L. Fikes

P. S. The boys name is Ike S. Ellis, 38761319.

Dear Robert:

There will be no charge and we hope you locate your Buddy.

—The Editor

Sweet Potatoe Looks Like Duck; Amazing Is This Freak Growth

One of the most unusual freak potatoes ever seen in this area famous for its magic feats, is a small one brought in last week by W. M. Brown of Maysfield.

This potato is an exact form of duck and Mr. Brown has accentuated the resemblance by making some legs out of small sticks.

The potato is on display in the show window of The Herald and has attracted quite a bit of attention.

The likeness is amazing and if you haven't seen it you should do so.

Mr. and Mrs. Cramblit In Columbus, Ohio, Are Parents of Baby Boy

Mr. and Mrs. O. E. Cramblit of Columbus, Ohio, are the parents of a baby son, born November 18 in the University Hospital in that city.

The baby weighed 7 pounds and has been named Elmer Ray, after his father and grandfather.

The grand parents here are Mr. and Mrs. Aubrey Ray Price. He is the first grandchild in the family. The mother is the former Miss Mary Sue Price.

"We heard him cry over the telephone," said Mr. Price. "And just think that is half way across the United States. Yes sir, when you can hear a baby cry that far he must be some boy," concluded the happy grandfather.

Do Your "Gums" Spoil Your Looks?

One look at some "GUMS" is enough to upset anyone.—Druggists refund money if the first bottle of "LETO'S" fails to satisfy.

Spiritual Freedom Is In Peril; Local Pastor Joins In Movement

Six thousand ministers in nineteen church denominations, nationwide, have banded together in a crusade known as Spiritual Mobilization to combat the peril to spiritual freedom because of communist infiltrations due to a rising pagan level toward a mortal God state, according to announcement made yesterday by Dr. James W. Enfield, Jr., founder and director of the organization. The movement is locally represented by Rev. Lester L. Morriss.

This crusade for freedom, which recognizes man as a child of God and as such master (not slave) of the state, sponsors the return to the American way of life with its democratic process and constitutional government. Its advisory committee is headed by such notables as Dr. Donald J. Cowling, former president of Carleton College; Roger W. Babson, the statistician; Dr. Edgar J. Goodspeed, Bible scholar and author; Dr. Rufus B. von Kleinsmid, chancellor University of Southern California; Alfred Noyes, poet; Dr. Robert Gordon Sproul, president University of California; Dr. Robert A. Millikan, president California Institute of Technology; Dr. Norman Vincent Peale, clergyman; Hon. Albert W. Hawkes, United States senator; and others.

Mrs. Ethel Sapp will have as Thanksgiving guests, and until after the week end, her sister and husband, Mr. and Mrs. Harry Boseman, of Lubbock.

The John Watsons Are Parents of Daughter

Mr. and Mrs. John Watson, Jr., are the parents of a baby girl born on October 14 at St. Paul's Hospital in Dallas.

Friends here have received announcments telling of the blessed event.

The father is the son of District Judge John Watson of Cameron. He served in the army in the late war and was a Captain at the time of his discharge.

The baby has been named Rebecca Chappell Watson.

They Aid Coop Fund For Poultry Shows

In the already published list of contributors to the coop fund for poultry shows here four names were omited and they are as follows:

Horstmann Bros. $15.00; Cameron Fruit & Grocery Co. $6.00; Cameron Ice & Cold Storage Co. $6.00 and Albert Collins $6.00.

Coops purchased with money contributed by Cameron business men were used for the first time in the November show and will be available again next year.

Mr. and Mrs. D. K. Hall whose home has been near Ad Hall have purchased the Tiff Moore home, and have completed moving. Many friends are glad to welcome Mr. and Mrs. Hall to the city.

Mrs. R. D. Wise and little son of Cameron Rt. 3 visited in Cameron this week.

BASKET BALL SCHEDULE SET UP AT MEET HERE

Basketball schedules for the season soon to open were set up here Monday night at a meeting of representatives from towns in the district, it was announced by Leo Jackson, head coach at Yoe High School.

Towns represented were Cameron, Taylor, Belton, Georgetown, Hearne, and Rosebud.

W. T. Hanes was named chairman. L. A. Holmes of Rosebud, Secretary and Treasurer; E. T. Robbins of Taylor, Vice Chairman.

The district representatives voted to play a double round robin schedule on a home and home basis to determine district championship. In case of a tie a series of 3 games will be played and the winner will be thus determined.

Each school is pledged to contribute to a fund to purchase a trophy to be awarded.

Cameron Might Follow Marshall Example; Our Needs Much Greater

Marshall residents have approved tax and revenue bonds totaling $2,150,000 and a 25-cent increase in the school maintenance tax.

Revenue bonds include $1,000,000 for water system improvements and $250,000 for sewage system improvements.

Tax bonds call for $1,000,000 for public schools, $325,000 for street paving, $50,000 for city parks, and $125,000 for public buildings.

Vesper Services At Presbyterian Church Friday, December 20

Vesper services will be held at First Presbyterian church on Friday December 20 beginning at 5 p. m., it was announced by Rev. E. O. Harrell, Minister.

The combined choirs of the Christian Church and the Presbyterian church will present the music. Rev. Roy Holt, pastor of the Christian church will direct the choirs.

Mr. and Mrs. Robert G. Foster of San Antonio spent the week end with her parents, Mr. and Mrs. Joe Hollas. Mrs. Foster is the former Maurine Foster.

CARD OF THANKS

We want our friends and neighbors to know of our deep gratitude for their kindness and sympathy so tenderly expressed to us during our recent great sorrow in the loss of our dear wife and mother. Your help and understanding helped us to bear the weight of grief and we will remember always your kindness. We thank those who gave flowers to express their sympathy and all who in any way sought to assist us.

O. C. Nolte and Family.

CHRISTIAN SCIENCE SERVICE

"God the Only Cause and Creater" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, December 8.

The Golden Text is: "Lord, thou art God, which hast made heaven, and earth, and the sea, and all that in them is" (Acts 4:24).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "By the word of the Lord were the heavens made; and all the host of them by the breath of his mouth" (Psalms 33:6).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Spiritual causation is the one question to be considered, for more than all others spiritual causation relates to human progress" (page 170).

DID YOU KNOW?

That according to last week's Baptist Standard our church gave to the Cooperative Program for the year ending in October $2,738.88? This means that because of your gifts through our Church budget this year $2,738.88 was divided in proportion to the need and was sent to Foreign Missions; Home Missions; Southern Baptist Seminary; Southwestern Baptist Seminary; Baptist Bible Institute; Relief and Annuity; W. M. U. Training School; American Baptist Theological Seminary. Aren't you glad that you had a part in giving this much last year? Help us to do that much and more this year by signing a pledge card and indicating your interest and support of our next year's work.

Mrs. T. S. Donaldson will leave in a few days for California where she will spend the summer.

Face Traffic

If you must walk on the highway, stay on the extreme left side facing on-coming traffic.

"Plan your work and Work your plan"

Long winter evenings bring families together after chores are done. Then there's time for serious talks and good fun. In December there's opportunity, too, to review the results of the past year's work . . . to make plans that can be carried out efficiently in the year that lies ahead.

Proper planning uncovers new opportunities in any business. With experience, know-how, and plain "horse sense" to draw on, plan-making should not be difficult. You think back with pleasure on your good crops . . . on how well your livestock or poultry programs turned out. You remember little things that made them profitable or caused a loss. With this in mind, you look ahead and decide on next year's crops and rotations. You think of ways to improve your livestock operations. You make provision for the purchase of breeding stock, seed, machinery, fencing and equipment. You consider your problems from all angles. That's the way a sound plan is made. Then you set your course and stick to it.

What's true of the individual farm or ranch is true of any business, small or large. We at Swift & Company well know that we, too, must plan our work and work our plan. Our business interests are many and varied. Without a plan and good business records, we would be almost certain to run into serious losses because our profit margin is small. But by planning carefully, diversifying and working efficiently, we—like you—hope to increase our earnings in the future.

A DOLLAR SAVED IS A DOLLAR EARNED

This true old saying has been an important guide in the business philosophy of Swift & Company right from the beginning of our history. And it always will be, because that is the *only* way anyone can make money in the meat packing business.

In no other business that I know of is there such a narrow margin of possible profit. In the purchase of livestock, for instance, our buyers compete with buyers representing 3,500 meat packing plants and 22,500 other commercial slaughterers. Then, we sell our products in competition with the same 26,000 slaughterers with whom we compete when purchasing the livestock. Because of this constant competitive pressure from both sides, our profit margins are very narrow.

Thus, *to make money we have to save money.* Yes—we, too, have to "plan our work and work our plan." That's why we are forever checking our operations to increase efficiency . . . to eliminate waste . . . to do our job better. That job is to process and distribute more than six and one-half billion pounds of meats and other products each year. Only on such a volume of business can tiny savings per pound add up to the profit which keeps us in business.

F. M. Simpson.

Agricultural Research Department

To all our friends on America's farms and ranches, we at Swift & Company wish

a Merry Christmas and a Happy New Year

J. John Holmes, *President*

TAKE TIME TO SAVE TIME

by L. S. Hardin, Purdue University

There is a labor-saving or labor-wasting way to do every farm job. Because we use too many old, hard ways, we waste 15 to 25 percent of our time. Greater attention to *how* we do our jobs can save time and work.

Ways of doing livestock work easier, faster and better are especially needed. Most farmers still use almost as much work to make 100 pounds of pork, beef or milk as they did 25 years ago. Yet, thanks mostly to machinery, we have reduced crop work one-fourth to one-half during the last 25 years.

Alert farmers are simplifying farm jobs, cutting chore time 15 to 50 percent. Five Indiana farmers, by carefully planning their work, are raising market hogs with one-quarter the average hours of labor. A Minnesota farmer rearranged his barn, adopted correct milking practices, saved 300 hours of work and 138 miles of walking a year. By rearranging his watering system, a poultry man saved 22 miles of walking a season. Some farmers are making hay in 90 man-minutes per ton. Others, using similar equipment but harder ways of working, spend twice the time.

What these farmers are doing, others can do, too. Know just what you want to accomplish. Figure out how to do a job the easiest, cheapest and best way. Cut out those unnecessary steps, combine jobs, rearrange barns and lots, work out more convenient chore routes, keep equipment busy, choose new equipment that suits your farm. Give new practices a fair trial.

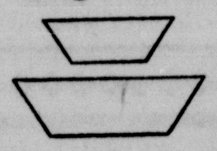

You'll find the easy way is the best way. Small improvements add up to days and dollars saved. Five minutes wasted a day equals 3 days a year; 5 steps a day amounts to a mile a year. With costs rising and profit margins due to shrink, *we can well afford to take time to save time.*

Soda Bill Sez:

. . . worriers die young; thinkers live long.
. . . a brain is no stronger than its weakest think.

Things are NOT always as they seem

Which is the longer—the top line of the top figure, or the bottom line of the bottom figure? Well—measure them and see!

Similarly, in the livestock-meat industry, conclusions based on a quick glance at a situation are not always so. A case in point is the "spread" between prices paid for livestock and the price received by the meat packer for the meat. The *fact* is that this spread is narrow. Out of every dollar Swift gets from the sale of its products, 75 cents, on the average, is returned to producers.

Can you name another business that returns such a high percentage of its sales dollar to producers of raw materials? Can you name any other business that performs so many essential services with the twenty-five cents left from that sales dollar? The twenty-five cents pays all business costs. Livestock-buying expenses, slaughtering, refrigeration and processing. The cost of selling the meat and delivering it to thousands of markets all over America. Necessary supplies, such as salt, sugar, barrels, boxes, paper. Ever-present taxes, etc. After all these expenses are paid, Swift's share averages, over a period of years, less than 2¢ on each sales dollar. This amounts to a fraction of a cent a pound of product handled.

OUR CITY COUSIN

Canadians Increase Limit Tourists May Carry Out

OTTAWA.—Customs inspectors at border points have been instructed to allow Canadians to carry $150 in cash or traveler's checks when crossing the border into the United States, officials of the foreign exchange control board said.

Of the $150 total, not more than $100 may be in United States funds. Previously Canadians were permitted to take only $50 in Canadian or U. S. funds across the border.

Officials said the permit "Form H" which previously had to be filled out for any amounts of more than $50 now is not necessary except for amounts in excess of $150.

Germans Given Increase in Food by Military Governors

BERLIN.—Deputy military governors for the United States and British occupation zones announced jointly that the daily food ration for normal consumers would be increased to 1,550 calories.

This action will put the two zones, now in the process of an economic merger, on a common ration. It will mean an increase of 400 calories daily in the British zone and 250 to 300 in the American zone.

Heart Tissue Dies at 34; Test Tube Life

NEW YORK.—Dr. Alexis Carrel's sliver of embryonic chicken heart tissue is dead at the age of 34.

Dr. Carrel began his experiment January 17, 1912, at Rockefeller institute, by placing a piece of heart in a test tube and feeding it chicken plasma and chicken embryo extract and pruning, washing and transplanting it to prove that tissue could be kept alive artificially. Dr. Carrel was able to make his point at the end of a year or so.

In 1940 he put responsibility for its sustenance on Dr. Albert H. Eberling at the Lederle laboratories, Pearl River, N. Y., who nurtured the heart until May of this year, when he retired and the heart was discarded.

Italian Christmas Industry

Naples was the center of the Italian Christmas industry during the Fifteenth century and had whole bands of artists, "figurari" as they were called, who did nothing but make dolls for Christmas.

Clothes Scarce Until Next Year

Survey of Industry Shows Shortage Will Run Well Into 1947.

NEW YORK.—In a survey recently completed here it was the consensus of industry sources that clothing shortages will hound the consumer and will continue to affect every member of the family at least until the end of the year.

Men's business shirts and children's underwear, women's lingerie and nylon hosiery were listed as just a few types of clothing in which supply is expected to get worse before it improves.

"All articles made of cotton or rayon are in short supply and will continue to be, at least until early next spring," one buying representative said.

Men of the family continue to be the hardest hit, and the children come next. The only real shortages facing the women are popular priced lingerie and nylons, which are expected to become progressively scarcer with approach of the Christmas season.

Output Controlled.

Some of the reasons given for continuing shortages were:

Unprecedented demand still eats up whatever merchandise reaches store shelves.

Some types of cotton goods are caught in a price squeeze. Textile ceilings have been increased to reflect a rise in raw cotton prices, but the ceilings of finished goods have not yet been raised.

Manufacturers of some types of rayon and cotton goods cannot fill their requirements for materials because of the increasing amount of output controlled by integrated setups in which one management handles all phases of production and distribution.

Certain mills continue to concentrate on sub-standard or non-standard types of cotton fabrics whereas the heaviest demand is for standard types.

Maximum prices allowed to be charged for goods made from priority materials in some instances are below permissible ceilings on the basis of cost factors.

Nylon yarn allocations to hosiery makers have been cut an estimated 10 to 15 per cent.

Shortages of skilled labor, lack of priority assistance in some cases and shortages of such materials as linings and pocketings have imposed additional difficulties.

In men's wear the supply of worsted suits is improving, but "it is unlikely that a supply-demand balance will be reached in men's suits before the fall of 1947," said Jerome Udell, clothing manufacturer.

Build Up Stocks.

Inventories of topcoats and overcoats are being built up gradually as are stocks of tweed and Shetland suits. But even by next fall, Udell said, it is doubtful that retailers will be able to build well-balanced and complete inventories.

Clothing sources said it was impossible to appraise immediately the effect of the order allowing men in the armed forces to wear civilian clothes when off duty, but they did not view it as too serious a problem.

While the CPA estimated it would send about two million more men clothes hunting, manufacturers considered it probable that their interest might center in casual clothes rather than in business suits, where the shortage is most acute.

National Association of Shirt and Pajama manufacturers described the shirt situation by saying "the outlook is as bad as it ever was." Men's underwear falls into the same category.

Retail inventories of shoes generally were said to be adequate at the moment, but the outlook depends on whether the supply of hides improves in the near future.

Most infants' and children's cotton knitted clothing is high on the hard-to-get list. Undershirts and sleepers are the scarcest items, while knitted panties are easier to find.

"We are going to feel the shortage of all cotton knitted underwear this winter," an underwear institute spokesman said, adding that heavyweight types are in shortest supply.

Will of Tobacco King Gives Five Millions to Charity

WINSTON - SALEM, N. C. — Five million dollars of an eight-million-dollar estate left by the late Mrs. Kate Bitting Reynolds, 78, of Winston-Salem, will go to religious, charitable and educational institutions, her will disclosed.

Mrs. Reynolds was the wife of William Reynolds, co-founder of R. J. Reynolds Tobacco company.

Chinese Dollar Drops Down To 4,100 for One U. S. Dollar

SHANGHAI. — Chinese dollars touched an all-time low — 4,700 to $1 U. S., then slumped back to 4,100 to $1. The action was attributed to such unconfirmable rumors as: government intends to revise the official exchange rate of 3,350 Chinese dollars to $1; government plans to check black market dealings in United States currency altogether, and that a new Chinese currency is expected.

Army Recruits No Longer Are Permitted to Pick the Spots

WASHINGTON.—The war department has had to hedge on a promise that volunteers signing up for three years could pick their spots and duty assignments, it was disclosed. The situation came about because so many recruits ask to serve in Europe.

An order by War Secretary Patterson said that "because of the constantly changing military situation," it is no longer possible to guarantee that a three year volunteer can serve in the theater or other assignment of his choice. Officials declined to disclose the figures but said that virtually no new men were being sent to Europe.

Another difficulty is that a disproportionate number of recruits have asked for assignment to the service branches, such as the quartermaster corps and ordnance department, rather than the infantry, artillery, and other combat arms.

Carroll Green of the Green Motor Company is in Detroit, Michigan. The company has recently obtained the agency for Chrysler cars and built a new sales building.

Mrs. Dan Robinson of Milano visited in Cameron this week on her way to Temple where she spent the holidays with her daughter and family.

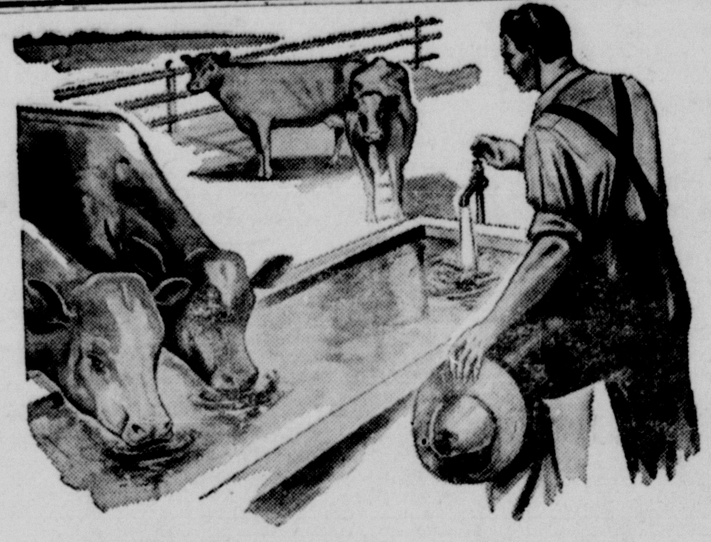

PLAN CHRISTMAS DINNER

Plan to prepare as much of the meal as possible on the day prior to Christmas so that the housewife can enjoy the day with her family.

NOTICE
To The Public

All of the land which I own or have rented in Milam County is being and will continue to be poisoned against grasshoppers, other insects, and other pests until March 1, 1947. My land is posted according to the requirements of the law. The poison will be dangerous to depdedating livestock (cattle, horses, mules, sheep, goats, and or hogs), and I hereby warn that I will not be responsible for the harm done to any livestock trespassing on my land.

MRS. L. K. SMOOT

THIS BEATS THE "GOOD OLD DAYS"

In the so-called "good old days" water had to be pumped by hand and many other back-breaking jobs made the farmer's day a succession of tiresome chores.

But life on thousands upon thousands of Texas farms has been changed. Rural electrification, pioneered in Texas by Texas Power & Light Company, has shortened the working hours by relieving the farmers of scores of jobs. On the modern Texas farm, electricity provides running water just like city folks enjoy . . . preserves foods through refrigeration and freezing . . . saws the wood . . . milks the cows . . . and does scores of other things to help both the farmer and his wife.

Since 1915, Texas Power & Light Company has been extending its rural lines to bring dependable, low-cost electric service to farm and rural homes. By 1921, the Company was serving 6,926 rural and farm families and today serves from its 7,000 miles of rural lines more than 68,000 farms and rural homes in North, Central and East Texas.

Back in 1927, John W. Carpenter, president of the Company, called a special meeting of officials of other power companies, farmers, business men and representatives of state educational institutions, at which meeting the Texas Committee on the Relation of Electricity to Agriculture was formed. This Committee has, since its inception, conducted research to speed up farm electrification and has advised farmers on the efficient use of electricity on the farm.

Prize Essays on 'Home Loyalty'

By MARY NELL McCLELLEN

If the citizens of Cameron will not support her, then who will? Cameron has as many products of the common sort as any other city; therefore, we should buy our everyday necessities in our own community and go elsewhere only when what we wish to purchase is not available here.

There are several reasons for this statement. If we spend most of our money out of Cameron, then her financial position is endangered; while if we spend our money here, it is kept circulating in the city. Everyone is benefited.

If Cameron is to be improved and enlarged, she will have to have the support and backing of her people. We do not want Cameron in a rut; and if there is a large retail demand, there will be new businesses set up, which, in turn, will benefit the entire city.

To make our city grow let's get behind her with our time, money, effort and support.

By PEGGY POSEY

Have you ever thought about why you, as a citizen of Cameron should do your trading here? I have and here are some of my reasons for trading here. I live and get my education in Cameron, and my father makes his money in Cameron, thus, I should spend my money here.

If more people trade in Cameron, the merchants and business men can afford to enlarge their stock and their places of business.

By shopping in Cameron, I help to create more jobs for the people here and thus decrease unemployment.

More businesses in Cameron means more taxes, which will go for bettering the conditions here. It helps us to have better schools i which I and other future citizens of the United States can secure our education. It also helps us to have better public buildings, roads and parks.

Next time I start to go shopping in another town, I'll ask myself whether the citizens of this town contribute anything to my well-being in Cameron. The answer to this question will be no, because they are trying to build a better city for themselves.

If we all co-operate, Cameron can and will be a great trading center.

Let's Talk Agriculture

BY BILL ARTHUR

The season of the year is approaching when a very destructive parasite makes its appearance in cattle. It is the cattle grub or commonly called wolves and warbles. This parasite causes farmers and stockmen greater losses than others that we consiantly guard against.

Grubby cattle are discounted from 1-2 to 1 1-2 cents per pound on the market, which averages $3.86 per animal marketed last year. Approximately 15 per cent more feed is required and the milk flow is reduced about 25 per cent.

We can control these grubs by spraying, dipping or dusting with Cube or Derris and 5 per cent rotenone. When dusting cattle for grubs, 1 lb. will dust 8 cows. The dust cost only about 9 cents per pound so the cost is about 1 cent to eleminate the grubs.

42 Party Tonight

Beginning at 7:30 a 42 party will be given at the Knights of Columbus Hall. You are cordially invited to attend. Come and enjoy the evening.

13 Bus Seats Left For Fredricksburg Game; Hurry For Tickets

If you hurry around to J. C. Penney Company you might be able to get a football ticket and a ride on a bus.

W. T. Hanes, superintendent of schools, said early Tuesday that there were just 13 seats left on the buses going to the game at Fredricksburg Friday night.

J. M. Boehner at the J. C. Penney store will sell 13 tickets and guarantee seat on bus, if you hurry and someone hasn't already beat you to them.

Mr. Hanes said the buses will leave Cameron at 1 p. m. Friday for Fredricksburg.

Mr. Hanes said that the buses will be from the Arrow Coach Lines.

Miss Almarae Brady has returned to TSCW after spending the Thanksgiving holidays with her parents, Mr. and Mrs. Chas. Brady.

Jack Lewis of Austin and his sister Miss Rebeca Joe Lewis of San Antonio spent the past week end with their mother, Mrs. Jack Lewis.

Talkie Work of Many Experts

Large Contribution of Bell Laboratories to First Sound Film Told.

NEW YORK. —Scientists in many fields and organizations have contributed to the extensive improvements that have been made in sound motion pictures in the 20 years since they were first introduced.

One of the leading contributors was the Bell Telephone laboratories, and its part in the development of sound pictures has been told by the magazine of the American Telephone and Telegraph company.

"The story of the development of successful sound picture apparatus by the Bell system goes back to 1912," the magazine says. "In that year a young inventor named Lee deForest showed to Western Electric engineers one of the great inventions of all time—the three-element tube he called the "audion.' In that tube, he was sure, would be found the answer to the problem of amplifying weakening telephone conversations as they traveled along long-distance telephone lines. Accordingly, the Bell system purchased the deForest audion in 1913 and telephone engineers immediately set to work to see what it could do.

High Vacuum Tube.

"Led by H. D. Arnold, Bell system scientists emerged with the high vacuum tube which was to be the fundamental agent making it possible to establish a transcontinental telephone system. But more than a first class amplifier was needed. Higher quality transmitters and a wide variety of associated apparatus also had to be designed. Much of it might be tested and compared by using sound recordings.

"The engineers who began initiating these studies of sound found it necessary to obtain recordings of far higher quality than those available by the commercial processes of the contemporary phonograph industry. Therefore they began to experiment with the recording of sound on film (an old but still fairly primitive laboratory art) while simultaneously seeking to improve the wax disk method of recording.

"Meanwhile, attention was given to the development of an improved microphone which would give uniform response to all pitches in the audible range. The magic of the high vacuum tube amplifier made it possible to design the condenser microphone, which, unlike previous 'mikes,' did not need to generate its own power.

Elements of Sound Film.

"The scientists working with new recording techniques likewise were achieving superior results. By 1916 they had developed two improved methods of recording sound on film and also were able to obtain fine results from wax disk recordings. A high quality public address system was the next achievement.

"By this time, then, Western Electric engineers had all essential elements for producing a sound motion picture, namely: (1) a high quality microphone capable of transmitting a wide range of sound frequencies without distortion, (2) the vacuum tube amplifier, (3) superior methods of recording sound on film and wax disks and (4) a loud speaker of high quality capable of delivering undistorted and amplified sound in a wide range of frequencies.

"An improved device for synchronizing motion pictures with electrically produced sound was constructed and the engineers believed it was time to see whether they could successfully make sound movies. Using the wax disk method, they produced the first electrically recorded talking picture, which was exhibited at Yale university October 27, 1922."

Crash Halts Traffic Debate in the Commons

LONDON. — An auto being pursued by a police car at 70 miles an hour through London's streets crashed through the railing outside the houses of parliament.

It hurtled down 12 feet onto the house of commons "Speaker's Green."

The crash interrupted a debate on the traffic code.

Girls in American Legion Doff Uniforms for Civvies

PHILADELPHIA.—The American Legion instituted its first all-women post here recently but the ladies took the oath in civvies. Said Margaret M. Schafer, post chairman:

"We thought about wearing our uniforms but for the sake of those who aren't the same size as they used to be, we decided on dresses."

Russ to Return to Germany 21,000 Interned During War

BERLIN. — The Soviet military government here announced that the Russians were returning to Germany 21,000 Germans, including women and children, who "for various reasons" were interned in the Soviet Union during the war.

The announcement added that more than 3,000 of these already had been returned to their homes in Thueringen.

COTTON GINNING REPORT

Census report shows that 9,353 bales of cotton were ginned in Milam County Texas from the crop of 1946 prior to Nov. 14, 1946 as compared with 15,694 bales for the crop of 1945.

Very respectfully,
J. C. THOMPSON,
Sepcial Agent.

Mrs. W. T. Whatley, Sr. who has been seriously ill in a hospital, is much improved and has been taken home.

Phone your news items to 282.

Mr. and Mrs. R. H. McIntosh have returned from Marlin where they spent a week in Torbett Hospital taking a checking over, and for the mineral baths, and are much improved.

Valuable Ivory

Ivory of the greatest value is found in the tusks of the hippopotamus. It is worth about three times that of the ivory procured from the elephant.

From where I sit ... by Joe Marsh

How to Stop Worrying

I guess folks in our town do about as much worrying as in yours—over housing and prices, and crops, and jobs—and the little domestic problems that are always coming up.

Dad Hoskins, who's lived to the happy age of eighty, has a simple formula for stopping worry. About every problem, he asks himself: Is there anything I can do about it? If there is, he never postpones making a decision, or taking necessary action.

If there isn't anything he can do about it, he sets aside a "worrying hour" after dinner, and gets his worrying over in one concentrated period. When that's over, he relaxes over a friendly glass of beer with Ma Hoskins—and they talk about pleasant things together, until bedtime.

From where I sit, that's as workable a formula as you could find ... right down to the mellow glass of beer that seems to wink away your worries.

Joe Marsh

Fight to Bridle Unruly Missouri

Army Engineers Are Making Progress in Battle to Control River.

GLASGOW, MONT.—Progress is being made by army engineers in their battle to control the unruly Missouri river.

They built, 10 years ago, with 10,000 workmen, the country's largest earth-fill dam—a huge mountain of soil, steel and concrete, which stemmed the river's vigorous flow and started to battle the water into a vast shallow lake here on the northeastern Montana prairie.

As part of the Fort Peck flood control job, they dug four tunnels through which the river could be diverted, subterranean passages deemed large enough to handle the river during its most unruly moods.

Now they've finished and are testing a giant spillway, an "insurance" project designed to supplement the tunnels. It's a concrete-lined ditch considered capable of handling any volume of water that conceivably might be produced by a flood far greater than any in the Missouri's notorious record.

To Rely on Spillway.

Engineers say that, should the occasion ever arise in centuries to come, the spillway itself easily could accommodate a deluge equal to the normal flow of the Mississippi at St. Louis.

Principal features of the spillway project are a mile-long channel and a steel structure. The latter is 800 feet wide—the channel's maximum width—and it supports 16 vertical lift gates each 25 feet wide and 40 feet high (or deep). It is traversed by an automobile highway 86 feet above the spillway floor.

The channel deepens and narrows to about 100 feet, finally disappearring into a dirt ditch which leads to a stilling pool.

Several score army engineers and geological survey men observed the first operational tests of the spillway. They mounted cameras atop the gate structure to photograph operations, and telephones to co-ordinate them. Below the gates, men stood on catwalks and perched on cableways with instruments to measure the exact flow.

Dethroned Monarch Leaves Bulgaria to Join 'Grandpa'

ISTANBUL, TURKEY. — A boy king who lost his throne came out of Bulgaria en route to Egypt to join his royal grandpa in exile.

Pale and almost bewildered, nine-year-old Simeon, the son of the late King Boris and last of the Coburg dynasty which crumbled in the recent plebiscite, arrived on a small special train direct from Sofia.

There was none of the pomp monarchs know, only masses of people drawn by the lure of nobility. He stared straight ahead as police whisked him from the Sirkedji station to a wharf across the Golden Horn. There he boarded the Turkish steamship Aksn and sailed in the afternoon for Alexandria.

With him were his queen mother, Joanna; his 13-year-old sister, Marie Louise, and Princess Evdoxie, sister of Boris. Expected to be waiting for them in Egypt is aging Victor Emmanuel of Italy, father of Simeon's mother.

Photo Christmas Cards

Come by and see our samples of Photo Christmas Cards . . . We can put any Kodak snapshot or studio picture on the card. If you have the picture, the negative is not necessary. These cards take special materials. We are limited on this material and time. Order early and be sure to get yours. Prices are low.

CHRISTMAS! WHAT DOES IT MEAN TO YOU?

Christmas means many things. It brings warm memories of other years, of friendship in youth, of the inexpressible, boundless joy of childhood on wakening to find a great heap of gifts. It brings more than memories—anticipations of joyous reunions, of a grand Christmas dinner, of a long afternoon before an open fire among good friends.

Most of all, perhaps, it brings the mythical delight of seeing your own children as they cry with joy on opening their beribboned packages. For most of us grown-ups, the thrill of the holiday season is in sharing the delight of little ones who are dear to us. We plan and sacrifice and busy ourselves with secret preparations, that our youngsters may be supremely happy on Christmas Day.

WATCH NIGHT

On New Year's eve midnight masses and watch night services are held everywhere, while those less inclined to religious observances make the closing minutes of the year an occasion of jollity.

J. T. Howard of Freeport visited in Cameron and the Yarrellton community last week. Mr. Howard is with Dow Chemical, and attended to business in this county while the men of that company are on strike.

Steps Out to Buy a Drink And Returns 6 Years Later

PATERSON, N. J.—Arthur Pacific was back with his wife, Louise, and five children, six years and eight months after he "stepped out" to a corner tavern for a drink.

It was a strange odyssey for the Paterson watchmaker, for the drink which he took in January, 1940, led from the tavern to a ship which took him to Naples, Italy, and eventually he was sent to a labor camp in Potsdam, Germany.

Pacific said he was apparently "drugged" for he "came to" in Gibraltar, aboard an Italian ship. When it docked at Naples, he said, he was sent by the Italians to Germany. The Germans, he said, put him to work in a displaced persons camp in Potsdam.

Three Sergeants Shielded by Belgrade Embassy Fly to U. S.

WASHINGTON.—Three American sergeants who spent seven months under the protection of the United States embassy in Belgrade to avoid possible arrest by Yugoslav authorities were brought here by plane.

An army officer said they were due to come home some time ago. Their return was delayed while plans were made by the embassy for safe conduct.

'Gold Rush' On, but Few Find Much Gold

CRESCENT CITY, CALIF. — Unbearded prospectors still were fumbling through Crescent City in California's latest so-called gold rush, despite the warning voiced by old hands at the game that all is not gold that glitters, and this may be no "bonanza."

State and federal mining men, rooting about for evidence of a big strike, hinted that perhaps there ain't no gold in them thar hills.

Thus far, they explained, the only gold in evidence is a few small pebbles displayed by Ernest Hay, city assayer. These samples were brought in from the Rattlesnake Ridge low divide country by an old prospector, Tom Cronin.

Hay put the ore through his special assay process and came up with the announcement: "This is rich stuff!"

Within a matter of hours the stampede was on.

Refugees in American Zone Increase 44,000 in Month

FRANKFURT, GERMANY.—Displaced persons in the United States occupation zone increased 44,000 last month for a total of 547,478, the army announced. Poles lead with 184,439. Listed as Jewish are 139,026. In the first two weeks of September 9,119 persons, including 8,246 Poles, were repatriated, bringing the total to 2,421,103 since repatriation began.

Jeep Substitutes for Mule Team; Does Work of Six

WENATCHEE, WASH. — Former G.I.s will not be surprised to hear that a jeep did the work of six pack mules.

The little jeep, belonging to a rancher, kept water supplied to a stand-by crew of forest fire fighters in rugged Pitcher canyon.

Forest service officials had thought the crew could be reached only by pack mule.

Six New Stars Found; Weigh 1,000 Tons Per Cubic Inch

MINNEAPOLIS, MINN.—University of Minnesota reported discovery of six new white dwarfs, a group of strange stars weighing up to 1,000 tons per cubic inch.

The university's announcement came as Prof. Willem Luyten, university astronomer, told of the discovery in an address scheduled for delivery in Cordoba, Argentina, during the 75th anniversary celebration of the Argentine national observatory.

Luyten and Dr. Paul D. Jose of the University of Arizona made the discovery. The white dwarfs represent atoms and matter existing under conditions which cannot be duplicated in existing laboratories. Because of this, Professor Luyten was quoted, the discovery is expected to lead to important conclusions concerning atomic structure and to new knowledge of atomic energy.

Sales of Retail Merchants Are Up 10 Per Cent in Month

WASHINGTON. — Sales of independent retail merchants for August were 10 per cent higher than in July and 33 per cent above August, 1945, the census bureau announced.

In the durable goods field, motor vehicle dealers showed a sales increase of 170 per cent over August, 1945, while furniture stores recorded a gain of 54 per cent; hardware stores, 50 per cent, and lumber-building materials dealers, 32 per cent.

Department stores headed the non-durable goods trade with a gain of 38 per cent over August, 1945. Other gains included apparel stores, 32 per cent; filling stations 28 per cent; dry goods and general merchandise stores, 28 per cent; general stores, 26 per cent; food stores, 25 per cent and drug stores, 18 per cent.

Buy Embassy In Rome With Surplus Property

ROME. — One of the most beautiful buildings of Rome, the Margherita palace, has been bought by the United States government to house the U. S. embassy offices in Rome.

Sale price of the palace was set at $1,250,000 worth of surplus American property, which already has been transferred to the Italian government.

Palazzo Margherita was erected about 1878 by the Roman architect Gaetano Kock for the Princess Boncompagni and Ludovisi of Piombino. It became the residence of Queen Mother Margherita, widow of Umberto I and mother of Victor Emmanuel III in 1900.

It was first utilized by the United States embassy, July 14, 1944, a month after Rome fell to the Allies.

Baffling Problem

The proper celebration of Christmas has been improved, but there still is the problem of getting a six-foot Christmas tree home in an overcoat pocket.

Some people try to attract attention by nastiness which merely shows what kind of people they are.

The spread of religion is often handicapped by the ignorance of those who think they have it in excessive quantities.

Brewed in England's Yuletide wassail bowls are baked apples, hot ale sasoned with spice, orange juice and rind and whipped eggs.

RALPH KEITH DIED IN HOUSTON ON TUESDAY

Ralph D. Edward Keith, 36, former resident of Cameron and residing at 608 William Penn Street, Houston, died Tuesday, Decembgr 3. He had been ill for some time and for the past two months had been unable to be at his place of business.

Ralph Keith was born in Algoa, Texas and had lived in Houston for the past 10 years where he had been associated with his brother, Kenneth C. Keith in the Keith Refrigerator Company, a business they organized there 10 years ago.

He was the son of Mr. and Mrs. H. C. Keith of Houston. When the family lived in Cameron, Mr. Keith was agent for the Santa Fe. They moved to Rosenberg.

Funeral services were held at Second Baptist church in Houston Wednesday with Dr. Kyle M. Yates, officiating and the Settegast-Kopf Funeral Home directing arrangements. The body was taken to Rosenberg for internment and a Woodmen of the World burial service was held at the grave. Mr. Keith was a member of the Baptist church and also a member of the RSES Society, a refrigerator trade organization.

Surviving are his wodow, Mrs. Clara Truman Keith; his parents, Mr. and Mrs. H. C. Keith of Houston; one sister, Mrs. Mildred Wilson of Dallas; 3 brothers, Willard Keith of Houston; George Keith of Temple and Kenneth Keith of Houston.

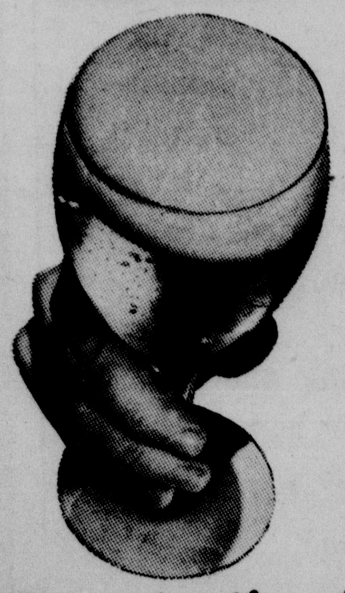

Mrs. Wilner Ramsouer and sister, Miss Leila Wooley, will have as Thanksgiving and week end guests, Misses Gladys Messimer of Houston; Mrs. Bonds Laird, of Galveston, and Maurine and Isbell Messimer of San Antonio.

Mrs. Emma Butts and children, Mrs. H. H. Chamberlain, Mr. and Mrs. Hollis Erwin, and Glenn Kennon, will spend Thanksgiving in Austin with her daughter ad husband, Mr. and Mrs. E. L. Smith.

Buckholts Baptist To Launch First Campaign In History for Building

The Buckholts Baptist Church has launched a drive for a Sunday School Building. It is the first such campaign in the history of the church, said Rev. Frank M. Newton who was in Cameron last week.

Here is the statement of the Building Committee of the church which gives opportunity to the people of Cameron and in this area to have a part in the contributions:

"During the past months we have marked progress in improving our church building. New windows have been installed, a new ceiling put in and in general, our auditorium is now in good condition. But we have increased also in numbers and we are now in great need of room for our Sunday School Classes. With the numbers of each class increasing, it is extremely difficult to conduct classes (all ages) in our one and only room —the church auditorium. The young people as well as the adults need the privacy of their own class rooms. And to satisfy a part of our present needs we are making greater plans than ever before. The definite plan is a new Sunday School Building, to be added to the present building.

Because it is one of our highest privileges to help in such a cause, we want as many as possible to know of it.

"We deeply appreciate any amount of money, labor, or advice you may give us.

Sincerely,

The Buckholts Baptist Church."

Contibutions may be left at the Cameron Herald or given or mailed to any of the following individuals: who make up the Sunday School Building Committee: Seth Corley, Cecil Criswell and Elmer Williams, all of Buckholts.

Col. Chas. Beacham Is Cameron Visitor; Now On Terminal Leave

Lt. Colonel Chas. Beacham, on terminal leave from the army was in Cameron over the Thanksgiving holidays visiting with his parents, Mr. and Mrs. C. M. Beacham.

Col. Beacham will remain in the reserve corps of the army and will be in San Antonio or Corpus Christi. He has obtained his license to practice law and has a connection in Corpus.

Overseas 39 months he saw his first combat with the famous Texas 36th Division at Salerno and on through the Italian campaign. Later he was transfered with the division to the European theatre.

Col. Beacham won the Distinguished Service Cross, the Bronze Star with Oak Leaf Cluster and the Purple Heart. He was reared in Cameron and old friends here were happy to welcome his return.

Yoemen Basketball Schedule

Here is the Yoemen basketball schedule just announced by Leo Jackson, coach:

January 7, Caldwell there.
January 10, Caldwell here.
January 14, Belton here.
January 17, Taylor here.
January 24 to 25, invitation tournament in Cameron.
January 24, Rosebud here.
January 28, Franklin there.
January 30, Franklin here.
January 31, Georgetown there.
February 4, Hearne here.
Feburary 6, Georgetown here.
February 7, Belton there.
February 11, Taylor there.
February 13, Hearne there.
February 18, Rosebud there.

All these are conference games with the exception of the games with Caldwell .

Four Local Students In Music Department At Southwest State College

Edwin Stafford Lyon, Willard B. Skelton, Minnie Nell Gandy and Ruth Gandy from Cameron are studying in the music department of the Southwest Texas State College.

The music department, under the direction of R. A. Tampke, chairman, offers to students as part of the curriculum, an opportunity to play in a band numbering 69 members; an orchestra with 59 players; and a string quartette. Singers may find a place in the chorus, the girls glee club or the men's vocal quartette. The Men's Music Club is open to men whose work is of outstanding quality.

Lyon is a member of the orchestra and the Men's Music Club and Skelton is also a member of the orchestra an dthe Men's Music Club. Miss Minnie Nell Gandy and Miss Ruth Gandy of the chorus.

Flour Thickening

Flour can be substituted for cornstarch for thickening by using twice as much in recipes.

YOEMEN PREPPING FOR GO AT HILL BILLIES

Serious business is in progress at the Yoemen Stadium these bright December days.

Coach Leo Jackson has a far away look in his eyes and is whooping things up with a band of fast stepping Yoemen who will meet Fredricksburg Friday night in Fredricksburg in a Bi-District game.

With only 19 points scored against their first string team this year the Yoemen from end position clear through the line and in the backfield are in fine fettle. There are no injuries and if their pre-game spirit can be relied upon those Hill Billies are in for a rough night.

When these teams clash it will be speed against speed. Dopesters are a bit divided on who gets the nod but based on district competition the Yoemen should have the edge. Dick Young, line coach says he has the best line he has ever seen wearing the maroon and gray.

Fredricksburg will field a fast team and both squads will run off the T formation. It should be largely a ground game and a thriller.

Rev. Frank M. Newton of Waco, pastor of the Buckholts Baptist Church, was in Cameron Monday. The church there is now engaged in a campaign to raise funds for a Sunday School Building and the appeal will be presented here to give all who wish an opportunity to contribute.

John Marak, Jr., is a surgery patient in the Newton Memorial Hospital and is doing well. His many friends here and at Marak will be glad to know of his improvement.

President of TP&L Rememberr Orphans

Four prize winning steers were purchased by the president of the T. P. & L., Mr. Carpenter, at the Junior Livestock Sale held during the State Fair and presented to as many orphans' home in North, Central and East Texas. The steers were fed out by four Future Farmers of America club boys and brought an average of forty-seven cents a pound.

The 1,080-pound calf fed out by Billy J. Donihoo of Plano went to Buckner Orphans Home at Dallas.

The steer of fifteen-year-old John Martin, Jr., Garland, went to the Boles' Orphans Home at Greenville.

The Presbyterian Home and School for Boys at Itasca received the steer which had been fed out by Donald Ray Bryan of Mesquite.

Harold Elliott, Moody, saw his calf presented to the Methodist Orphanage at Waco.

Mr. Carpenter never lets an opportunity pass where he can contribute to the happiness of orphan children. That's one of the reasons why Texas Power & Light Company is close to the hearts of the people—its managers are close to them.

Mr. and Mrs. Preston Schwarz and daughter were welcome visitors in Cameron recently.

Pvt. Roy McDermott, who has been stationed at Fort Lewis, Washington is spending his ten day furlough at home with his parents, Mr. and Mrs. Sam McDermott. When his furlough is terminated he will fly to Camp Stoneman, California port of embarkation.
